COVER PICTURE

The cover picture shows the molecular structure of a (1,3-diboryl-2,4-diphenylcyclobutadiene)(cyclopentadienyl)cobalt complex obtained in an attempt to trimerize 1-(dithiolboryl)-2-phenylacetylene with $\text{CpCo}(\text{CO})_2$. Details are discussed in the article by W. Siebert et al. on p. 2635 ff.
