

Low-Valent Titanium–Pentafulvene Complexes – Formation of Dinuclear Titanium–Nitrogen Complexes

Axel Scherer,^[a] Kay Kollak,^[a] Arne Lützen,^[a] Marion Friedemann,^[a] Detlev Haase,^[a]
Wolfgang Saak,^[a] and Rüdiger Beckhaus*^[a]

Keywords: Titanium / Bridging ligands / Nitrogen / Metallocenes / Fulvene ligands

In a late stage of production Equation (2) on p. 1006 of the print version^[1] was inadvertently replaced by a copy of Equation (3); the electronic version is free of this error. The correct Equation (2) is shown below.
