

The EUCHEMSOC Societies have taken the significant step into the future by merging their traditional journals, to form two leading chemistry journals, the *European Journal of Inorganic Chemistry* and the *European Journal of Organic Chemistry*. Three further EUCHEMSOC Societies (Austria, Czech Republic and Sweden) are Associates of the two journals.

COVER PICTURE

The cover picture shows the role played by synthetic metalloenzyme analogues in uncovering the relationship between metalloenzyme active site structure, properties, and function at the molecular level. Details are presented in the Microreview by L. M. Brines and J. A. Kovacs on p. 29 ff.
