

The EUChemSoc Societies have taken the significant step into the future by merging their traditional journals, to form two leading chemistry journals, the *European Journal of Inorganic Chemistry* and the *European Journal of Organic Chemistry*. Three further EUChemSoc Societies (Austria, Czech Republic and Sweden) are Associates of the two journals.

## COVER PICTURE

The cover picture shows an apple snail (*Pomacea bridgesi*) and scanning electron micrographs of five different forms of calcium carbonate that were prepared in vitro (vaterite, calcite, monohydrocalcite, amorphous calcium carbonate, and aragonite). Details are discussed in the article by M. Neumann and M. Epple on p. 1953 ff.
