

The EUChemSoc Societies have taken the significant step into the future by merging their traditional journals, to form two leading chemistry journals, the *European Journal of Inorganic Chemistry* and the *European Journal of Organic Chemistry*. Three further EUChemSoc Societies (Austria, Czech Republic and Sweden) are Associates of the two journals.

## COVER PICTURE

The cover picture shows the cleavage of an infinite copper(I) helix into discrete  $\text{Cu}_n$  fragments of decreasing nuclearity ( $n = 6, 4, 2$ ) as a result of the increase in temperature of the gas-phase reactions with polyarenes. Details are discussed in the article by Yu. Sevryugina and M. A. Petrukhnina on p. 219ff.
