Chemical Modification of a Bridging Ligand Inside an MOF

The EUChemSoc Societies have taken the significant step into the future by merging their traditional journals, to form two leading chemistry journals, the *European Journal of Inorganic Chemistry* and the *European Journal of Organic Chemistry*. Three further EUChemSoc Societies (Austria, Czech Republic and Sweden) are Associates of the two journals.

COVER PICTURE

The cover picture shows the post-synthetic functional modification of a Metal–Organic Framework without destroying the original 3D architecture. Details are discussed in the Short Communication by P. Gamez et al. on p. 1551ff. The authors are indebted to the Chemical Research Council of the Netherlands and the Graduate Research School Combination “NRSC Catalysis” for financial support.
