

The article entitled 'Prodrugs – Part 2: Acylbenzoate esters of metronidazole' by K. Bowden and J. Izadi, published in no. 12 of Vol. 32 as Eur. J. Med. Chem. 32 (1997) 995–1000, contains the following two mistakes:

(1) Structure **3** on p. 996 should have X in the 4- instead of the 7-position, as shown below:

**3a** X = H

**3b** X = CHO

(2) In *table II* on p. 997, the seventh entry (**2g**) of the third column should be 796 instead of 7.96.
