Synthetic and Structural Studies of Silver(I)- and Gold(I)-Containing N-Heterocyclic Carbene Metallocrown Ethers

Jun-Wen Wang,^[a] Qing-Shan Li,^{*,[a]} Feng-Bo Xu,^[a] Hai-Bin Song,^[a] and Zheng-Zhi Zhang^{*,[a]}

Keywords: Carbene ligands / Crown compounds / Gold / Silver

The corresponding authors of the original article^[1] are Q.-S. Li and Z.-Z. Zhang, and the research was conducted at the State Key Laboratory of Element-Organic Chemistry.
