

Stereoselective Enzymatic Synthesis of *cis*-Pellitorine, a Taste Active Alkamide Naturally Occurring in Tarragon

Jakob P. Ley,^{*,[a]} Jens-Michael Hilmer,^[a] Berthold Weber,^[a] Gerhard Krammer,^[a]
Ian L. Gatfield,^[a] and Heinz-Jürgen Bertram^[a]

Keywords: Chemosensates / Alkamides / Acylation / Biotransformations / Diastereoselectivity

The stereochemical descriptor in the compound name of 1a in the first sentence of the Introduction on p. 5135 of the original article^[1] is incorrect; the correct name is:

(2*E*,4*E*)-*N*-isobutyldeca-2,4-dienamide
