

Pyridyl Phosphinites and Pyridyl Phosphites from Chiral Pyridyl Alcohols – A Modular Approach

Fredrik Rahm,^[a] Andreas Fischer,^[b] and Christina Moberg^{*[a]}

Keywords: Asymmetric catalysis / Chiral pool / Palladium / Pyridine ligands / Zinc

*On pages 4212 and 4213 of the original article,^[1] the characterization data (optical rotation, melting point, and ¹H, ¹³C and ³¹P NMR data) for compounds **2c**-BH₃ and **2d**-BH₃ are interchanged; the correct data for **2c**-BH₃ are given under **2d**-BH₃ and vice versa.*

The Authors
