Conformational Control in Metallofoldamers

A union formed by chemical societies in Europe (ChemPubSoc Europe) has taken the significant step into the future by merging their traditional journals, to form two leading chemistry journals, the *European Journal of Inorganic Chemistry* and the *European Journal of Organic Chemistry*. Three further members of ChemPubSoc Europe (Austria, Czech Republic and Sweden) are Associates of the two journals.

COVER PICTURE

The cover picture shows that enantiopure fluorinated amino acids and peptides are conveniently obtained from ethyl trifluoropyruvate and trifluoroacetone. Details are discussed in the article by T. Brigaud et. al. on p. 5717ff. The background is a picture of the Zen garden of the Tōfuku-ji temple in Kyoto.
