Course

Introduction to Orthodontics

Pre-residency: Two month course on Basics in
Orthodontics. The aim of the course is to provide
basic knowledge in orthodontic diagnosis and
treatment planning, together with an understand-
ing of growth and development of the craniofacial
complex, as well as principles of biomechanics.
The course is divided into theoretical and practical
seminars, supported by clinical demonstrations.
It will take place on a full-time basis during
8 consecutive weeks. The language of instruction
is English.

Start of programme: 28th February 2000

Deadline for application: 15th November 1999

Contact: Prof. Dr S. Kiliaridis, Department of
Orthodontics, Geneva University Dental School,
19, rue Barth.-Menn, CH-1211 Geneva 4,
Switzerland

Tel: +41 22 382 91 41;

Fax: +41 22 372 94 97;
