

European Journal of Orthodontics

Volume 21 (1999) Subject entries: Abstract section

Page numbers are given first followed by the abstract number in parentheses

α chain integrins

Effect of mechanical stress on the expression of ... 568 (3)

Aboriginal crowding

Relationship between ... and longitudinal changes of available space 624 (169)

Accuracy of cephalometry

The ... in the interpretation of treatment results 596 (87)

Accuracy of digital imaging

... and futuristic technology 440 (30)

Accuracy of positioning

... three bracket systems by operators with different levels of experience 595 (85)

Acidic corrosion

Nickel release connected to ... of (super)elastic orthodontic archwires 627 (176)

Actin polymerization

... in permeabilized human gingival fibroblasts 571 (11)

Activator

Comparison of the effects of ... and Class II elastics in the treatment of skeletal Class II relationships and overjet 576 (26)

The progressive repositioning ... in the treatment of Class II division 1 malocclusions 592 (75)

Activator treatment

'Effective' temporomandibular and chin changes during ... 572 (13)

TMJ effects of ... 588 (64)

Activators

Influence of ... on overbite 612 (135)

Activin- β A mutant mice

Tooth development in ... 578 (32)

Advancement

Step-by-step ... of the mandible in Class II treatment 629 (183)

Aesthetic orthodontic wires

Coating on the surface of ... 629 (184)

Aesthetically pleasing faces

Evaluation of skeletal asymmetry in ... with normal occlusion 584 (53)

Age

A histomorphometric and scanning electron microscopy study of human condylar cartilage and bone tissue changes in relation to ... 611 (130)

Airway space

Cephalometric evaluation of posterior ... in unilateral cleft lip and palate patients 602 (104)

Alternative treatments

Class II malocclusion: comparison of ... and time of treatment 439 (28)

Alveolar bone

Biological reaction of ... to orthodontic movement 98 (8)

Alveolar bone formation

Expression of ... after orthodontic tooth movement and tooth extraction of rat molars 441 (32)

Alveolar tissues

Changes in gingival and adjacent ... during orthodontic tooth movement 97 (6)

Anatomic structure

... of the face in children born prematurely and on time 623 (165)

Anchorage

Biomechanical evaluations of palatal implants and consequences for orthodontic ... 452 (62)

Experiences with the use of the Straumann orthosystem for ... with an implant in the palate 443 (37)

Implants for orthodontic ... 455 (69)

Anchorage device

A new intraoral ...—the mini screw 434 (11)

Angiogenic growth factors

... released in human pulp following orthodontic force 97 (4)

Angle Class II malocclusions

The orthodontic effect on ... among Japanese and Caucasians 590 (71)

Angulation

Determination of tooth ... in dental computer tomography 623 (164)

Anterior mandibular positioning

... and minimal pharyngeal cross-sectional area 439 (26)

Anterior open bite

Treatment of skeletal ... with a MAD IV appliance 604 (111)

Anterior teeth

Comparison of condylar paths and articulator generated vertical growth arrest caused by dental implants replacing upper ... 436 (18)

Antibody-positive cells

Localization of anti-monocyte/macrophage ... after tooth movement 104 (26)

Anti-monocyte/macrophage

Localization of ... antibody-positive cells after tooth movement 104 (26)

Apert's syndrome

Three-dimensional analysis of craniofacial growth in a patient with ... 445 (44)

Apical root resorption

... during experimental tooth movement in rats 102 (19)

... in maxillary cleft side teeth after treatment with fixed appliances 620 (157)

Apnoea-hypopnoea Index

The ... 571 (12)

Appliance therapy

Dentoskeletal changes with functional evaluation of ... 609 (125)

Appliances

Effects of different ... in selected patients with OSA 432 (8)

Arch development technique

The effect of lip bumper treatment in the co-ordinated ... 570 (9)

Architectural analysis

Advantages of using ... in diagnosing OSA 614 (140)

Archwires

Levelling the curve of Spee with round compared with rectangular ... 570 (7)

Nickel release connected to acidic corrosion of (super)elastic orthodontic ... 627 (176)

Ti-Nb® orthodontic ... 578 (34)

Arrested tooth eruption

... 445 (43)

Articulator generated condylar positions

Comparison of condylar paths and ... in deep and open bite subjects with healthy TMJs 570 (8)

Articulator generated vertical growth arrest

Comparison of condylar paths and ... caused by dental implants replacing upper anterior teeth 436 (18)

Atrophic midface

Callus distraction of the ... 442 (34)

Autotransplantation

Outcome of ... in orthodontic treatment planning for congenitally missing teeth 620 (158)

Available space

Relationship between Aboriginal crowding and longitudinal changes of ... 624 (169)

β chain integrins

Effect of mechanical stress on the expression of ... 568 (3)

Bacteraemia

Investigation of ... following orthodontic debanding and debonding 437 (22)

Biodegradable matrices

Bone induction using ... for the healing of experimental cranial defects in dogs 616 (146)

Bioelectrical stimulation

... in orthodontic treatment 104 (24)

Biological reaction

... of alveolar bone to orthodontic movement 98 (8)

Biomechanical evaluations

... of palatal implants and consequences for orthodontic anchorage 452 (62)

Biometric comparison

A ... of orthodontic imaging techniques 446 (45)

Bionator therapy

Monitoring TMJ function in Class I division 1 growing patients undergoing ... 582 (44)

Bite force variations

Posterior maximum ... and craniofacial architecture in young adults 431 (4)

Bite jumping appliances

Influence of a ... treatment of facial growth depending on the vertical pattern 604 (110)

Influence of ... on overbite 612 (135)

Bolton tooth size discrepancies

Frequency of ... among Italian orthodontic patients 601 (100)

Bolton tooth-size ratio

The effect of heritability on ... 573 (16)

Bolton's ratio

... among southern Chinese 624 (168)

Bonding

A comparison of fluoride-releasing cements for orthodontic ... 589 (68)

Cariostatic effect of a resin-reinforced glass-ionomer for ... brackets *in vivo* 580 (39)

Direct ... to porcelain with resin-reinforced glass-ionomer cement 598 (92)

Bone

... physiological considerations in orthodontic practice 99 (11)

Bone condensing

... and its significance in endosteal palatal implants 449 (55)

Bone density

Evaluation of ... using panoramic radiographs 588 (63)

Influence of systemic bone metabolism on maxillofacial ... 102 (20)

Bone density variations

... during open bite treatment 589 (67)

Bone graft

Neovascularization of endochondral ... with demineralized intramembranous bone matrix 577 (31)

Bone induction using composite intramembranous ... 629 (182)

Bone induction

... of demineralization of intramembranous and endochondral bone matrices 628 (181)

... using biodegradable matrices for the healing of experimental cranial defects in dogs 616 (146)

... using composite intramembranous bone grafts 629 (182)

Bone matrices

Bone induction of demineralization of intramembranous and endochondral ... 628 (181)

Bone matrix

Cells involved in the healing of intramembranous bone mixed with demineralized intramembranous ... 576 (27)

Neovascularization of endochondral bone graft with demineralized intramembranous ... 577 (31)

Bone measurement

Ultrasound ... in orthodontic patients with congenitally missing teeth 588 (65)

Ultrasound ... in orthodontic patients with osteopenic pathologies 604 (109)

Bone metabolism

Influence of systemic ... on maxillofacial bone density 102 (20)

Bone quality

In vivo investigation of ... to evaluate mandibular bone maturation 617 (148)

Bone regeneration

... of calvarial defects using growth hormone and polytetrafluoroethylene membranes 575 (24)

Qualitative and quantitative micro-computer tomographic assessment of ... in rat calvarial defects 434 (14)

Bone tissue changes

A histomorphometric and scanning electron microscopy study of ... in relation to age 611 (130)

Bone turnover

The influence of ... on tooth movement in a rat model 105 (27)

Bracket systems

Accuracy of positioning three ... by operators with different levels of experience 595 (85)

Geometric differences between commercial ... and individual ideal occlusion 603 (108)

Bracket-cement interface

Modelling of the orthodontic ... 605 (114)

Brackets

Cariostatic effect of a resin-reinforced glass-ionomer for bonding ... *in vivo* 580 (39)

- Frictional forces of self-ligating and conventional ... 615 (143)
- Immediate reprocessing of failed orthodontic ... 593 (78)
- Long-term corrosion behaviour of TiN-coated ... *in vivo* 591 (72)
- BRACS systems**
- Description of longitudinal cephalometric means on the sagittometer of the ... 593 (80)
- Breathing tests**
- ... in children with and without mouth-breathing signs 587 (60)
- Calcium gluconate**
- A quantitative study of orthodontic tooth movement following injection of ... in Wistar rats 622 (163)
- Callus distraction**
- ... of the hypoplastic and atrophic midface 442 (34)
- Calvarial defects**
- Bone regeneration of ... using growth hormone and polytetrafluoroethylene membranes 575 (24)
- Qualitative and quantitative micro-computer tomographic assessment of bone regeneration in rat ... 434 (14)
- Canines**
- Computer tomographic scans reveal incisor resorption after ectopic eruption of maxillary ... 437 (21)
- Is root formation of the lower ... an indicator for orthopaedic treatment timing? 585 (56)
- Cariostatic effect**
- ... of a resin-reinforced glass-ionomer for bonding brackets *in vivo* 580 (39)
- Cartilage**
- The effects of IGF-1 on growth of the rat ... 580 (40)
- Unilateral mastication and the proteoglycan content of mandibular condylar ... 103 (23)
- Cartilages**
- Comparison of proteoglycans in condylar costal and nasal ... 103 (22)
- Centre of resistance**
- Location of the ... of the upper dentition and the nasomaxillary complex 574 (22)
- Cephalograms**
- Model-based computer vision for supervised landmarking of ... 456 (73)
- Cephalometric changes**
- ... after treatment with facemask and palatal expansion 586 (58)
- Cephalometric comparisons**
- ... of subjects with snoring and OSA 572 (15)
- Cephalometric error analysis**
- 3D ... using the DigiGraph™ Workstation 591 (74)
- Cephalometric evaluation**
- ... of posterior airway space in unilateral cleft lip and palate patients 602 (104)
- Cephalometric measurements**
- ... for the position of the lower incisors 584 (52)
- Changes in ... in orthognathic surgery patients before during and after treatment 575 (25)
- Reliability of post-surgical ... 574 (19)
- Cephalometric variables**
- The apnoea-hypopnoea index: does it correlate with ... 571 (12)
- Cephalometrics**
- ...—a look back and a look forwards 449 (53)
- Cephalometry**
- Foetal ... in 3D ultrasound images of craniofacial deformities 436 (19)
- The accuracy of ... in the interpretation of treatment results 596 (87)
- Cervical headgear**
- Comparison of skeletal effects in ... and FR II treatment 447 (48)
- Cervical spine findings**
- ... in cleft lip and palate patients 580 (41)
- Cervical vertebrae**
- The ... in skeletal and somatic maturation evaluation 624 (167)
- Chemical structure**
- Influence of ... on the setting behaviour of glass-ionomer cements 582 (46)
- Chin**
- Stress distribution in the ... region following genioplasty 576 (28)
- Chin changes**
- 'Effective' ... during activator treatment 572 (13)
- Class I division 1 growing patients**
- Monitoring TMJ function in ... undergoing Bionator therapy 582 (44)
- Class I malocclusions**
- Evaluation of oropharyngeal space in subjects with ... using lateral cephalometry 609 (124)
- Class I skeletal pattern**
- An evaluation of Wits' analysis in an Iranian population aged 9–15 years with a ... 615 (142)
- Class II division 1 malocclusions**
- Changes in the mechanical advantage of the masseter and temporal muscles and in the number and intensity of occlusal contacts following Herbst appliance treatment of ... 430 (3)
- The progressive repositioning activator in the treatment of ... 592 (75)
- Class II division 2 malocclusions**
- Post-retention assessment of overbite stability in subjects with ... 444 (41)
- Class II elastics**
- Comparison of the effects of activator and ... in the treatment of skeletal Class II relationships and overjet 576 (26)
- Class II malocclusions**
- ... 439 (28)
- Evaluation of oropharyngeal space in subjects with ... using lateral cephalometry 609 (124)
- Early versus late treatment for ... 453 (64)
- Randomized prospective clinical trial evaluating early treatment of ... 445 (42)
- The orthodontic effect on Angle ... among Japanese and Caucasians 590 (71)
- Class II non-extraction treatment**
- Soft tissue profile and molar position in ... 613 (138)
- Class II therapy**
- The pendulum appliance in ... 440 (29)
- Class II treatment**
- Maximal jumping and step-by-step advancement of the mandible in ... 629 (183)
- Class III hyperdivergent malocclusions**
- Elastic tongue elevator: treatment results in subjects with ... 446 (47)

Class III malocclusions

- Different therapies in ... 631 (188)
- Reverse twin blocks for early treatment of ... 631 (189)

Class III treatment

- Treatment and post-treatment changes induced by orthodontic ... 437 (23)

Cleft lip and palate patients

- Cephalometric evaluation of posterior airway space in unilateral ... 602 (104)
- Cervical spine findings in ... 580 (41)
- Prediction of craniofacial growth in unilateral ... 595 (84)

Cleft palate

- Craniofacial characteristics of patients with Pierre Robin syndrome and those with isolated ... 616 (145)
- Dermatoglyphic pattern and ... 619 (153)

Cleft patients

- Outcome following maxillary surgery in ... 443 (38)

Cleft siblings

- Hypodontia and dental formation in ... and non-cleft siblings 583 (48)

Cleft side teeth

- Apical root resorption in maxillary ... after treatment with fixed appliances 620 (157)

Clinical management

- ... in orthodontic loaded palatal implants 568 (2)

Clinical studies

- ... of Van der Woude syndrome 456 (71)

Coating

- ... on the surface of aesthetic orthodontic wires 629 (184)

Collagen mRNA

- Expression of ... after orthodontic tooth movement and tooth extraction of rat molars 441 (32)

Combined orthodontic surgical treatment

- Three-dimensional records of movements of the mandible and changes of neuromuscular guidance as a result of ... 452 (63)

Commercial brackets systems

- Geometric differences between ... and individual ideal occlusion 603 (108)

Composite intramembranous bone grafts

- Bone induction using ... 629 (182)

Compression

- Proliferative response of rat periodontal ligament cells to ... *in vivo* 99 (10)

Computed simulation

- A 3D integration system for ... of orthognathic surgery 606 (116)

Computed tomography

- 3D ... in orthodontics 438 (25)
- A study of craniofacial asymmetries using 3D ... in 3D vestibular orientation 574 (20)

Computer tomographic analysis

- Masticatory muscles in facial asymmetries—a ... 442 (35)

Computer tomographic scans

- ... reveal incisor resorption after ectopic eruption of maxillary canines 437 (21)
- 3D cephalometry from ... to assess craniofacial growth 447 (49)

Computer tomography

- Determination of tooth angulation in dental ... 623 (164)

Computer-aided therapy

- ... of craniomandibular disorders by the condyle-position-simulator 599 (94)

Computerized planning

- Orthognathic surgery ... 623 (166)

Condylar cartilage

- A histomorphometric and scanning electron microscopy study of human ... 611 (130)

- Comparison of proteoglycans in ... 103 (22)

- Unilateral mastication and the proteoglycan content of mandibular ... 103 (23)

Condylar paths

- Comparison of ... and articulator generated condylar positions in deep and open bite subjects with healthy TMJs 570 (8)

- Comparison of ... and articulator generated vertical growth arrest caused by dental implants replacing upper anterior teeth 436 (18)

Condyle-position-simulator

- Computer-aided therapy of craniomandibular disorders by the ... 599 (94)

Congenitally missing teeth

- Outcome of autotransplantation in orthodontic treatment planning for ... 620 (158)

- Ultrasound bone measurement in orthodontic patients with ... 588 (65)

Constant forces

- External root resorption as a reaction to ... 455 (70)

Contemporary orthodontic treatment

- ... 452 (61)

Conventional brackets

- Frictional forces of ... 615 (143)

Conventional reference lines

- The relationship between the true horizontal plane and ... 605 (112)

Convexity

- Changes in the ... of the face in subjects with mandibular prognathism 613 (137)

Co-ordinated arch development technique

- The effect of lip bumper treatment in the ... 570 (9)

Correlation hypotheses

- Malocclusion and temporomandibular disorders: ... 610 (129)

Corrosion

- Assessment of ... of new orthodontic NiTi-alloys 616 (147)
- Nickel release connected to acidic ... of (super)elastic orthodontic archwires 627 (176)

Corrosion behaviour

- Long-term ... of TiN-coated brackets *in vivo* 591 (72)

Costal cartilages

- Comparison of proteoglycans in ... 103 (22)

Cranexplor

- A new look at craniofacial growth: the ... 435 (17)

Cranial defects

- Bone induction using biodegradable matrices for the healing of experimental ... in dogs 616 (146)

Cranial radiographic analysis

- Personal identification using ... 600 (99)

Craniofacial architecture

- Posterior maximum bite force and ... in young adults 431 (4)

Craniofacial asymmetries

- A study of ... using 3D computed tomography in 3D vestibular orientation 574 (20)

Craniofacial bone growth

- Manipulation of ... in humans at adulthood executed with the Herbst appliance 450 (57)

- Craniofacial characteristics*
... of patients with Pierre Robin syndrome and those with isolated cleft palate 616 (145)
- Craniofacial deformities*
Foetal cephalometry in 3D ultrasound images of ... 436 (19)
- Craniofacial growth*
A new look at ... 435 (17)
Prediction of ... in unilateral cleft lip and palate patients 595 (84)
3D analysis of ... in a patient with Apert's syndrome 445 (44)
3D cephalometry from computer tomographic scans to assess ... 447 (49)
- Craniofacial morphology*
... in subjects with OSA 614 (141)
- Craniofacial size*
A familial study of ... 568 (1)
- Craniofacial structures*
Sonographic visualization of foetal ... 432 (7)
- Craniomandibular disorders*
... 587 (61)
Computer-aided therapy of ... by the condyle-position-simulator 599 (94)
- Craniomandibular dysfunctions*
Influence of mental load on masticatory muscles in patients with ... 621 (159)
- Crossbite*
Is scoliosis a risk factor in the development of lateral ...? 456 (72)
Long-term follow-up of early treatment of unilateral forced posterior ... 626 (173)
Spontaneous permanent molar expansion in ... patients 434 (13)
- Cultured keratinocytes*
A mucosal substitute containing ... 608 (123)
- Curve of Spee*
Levelling the ... with round compared with rectangular archwires 570 (7)
- Cyclic strain*
Comparison of two types of human osteoblasts under ... *in vitro* 587 (62)
- Cytotoxic behaviour*
Assessment of ... of new orthodontic NiTi-alloys 616 (147)
- Debanding*
Investigation of bacteraemia following orthodontic ... 437 (22)
- Debonding*
Investigation of bacteraemia following orthodontic ... 437 (22)
- Deciduous mandibular molars*
Hemisection of second ... in the absence of second mandibular premolars 582 (45)
- Deep bite subjects*
Comparison of condylar paths and articulator generated condylar positions in ... with healthy TMJs 570 (8)
- Demineralized*
Bone induction of ... of intramembranous and endochondral bone matrices 628 (181)
- Demineralized intramembranous bone matrix*
Cells involved in the healing of intramembranous bone mixed with ... 576 (27)
Neovascularization of endochondral bone graft with ... 577 (31)
- Demineralized white enamel spots*
Distinguishing post-orthodontic ... from developmental white opacities by luminance profile analysis 628 (180)
- Dental Aesthetic Index*
Measuring orthodontic treatment need using the ... 606 (115)
- Dental age assessment*
... in a Belgian population 626 (175)
- Dental arch changes*
A longitudinal evaluation of lower ... in early adulthood 608 (120)
- Dental computer tomography*
Determination of tooth angulation in ... 623 (164)
- Dental formation*
... in cleft and non-cleft siblings 583 (48)
- Dental health*

- Dysfunctional factor*
The ... in the incipient temporary and mixed dentition 577 (30)

Early mixed dentition

Face mask therapy during the ... 630 (186)

Early permanent dentition

Determinants of mandibular crowding in the ... 603 (107)

Early reaction

Absence of macrophages in ... of periodontium to mechanical stimulation 630 (187)

Early reparative processes

... of orthodontically induced root resorptions in adolescents 103 (21)

Early treatment

Long-term follow-up of ... of unilateral forced posterior crossbite 626 (173)
Randomized prospective clinical trial evaluating ... of Class II malocclusions 445 (42)
Reverse twin blocks for ... of Class III malocclusions 631 (189)
... versus late treatment for Class II malocclusions 453 (65)

Ectopic eruption

Computer tomographic scans reveal incisor resorption after ... of maxillary canines 437 (21)

Education

Orthodontic ... and innovative technology 454 (67)

Elastic orthodontic archwires

Nickel release connected to acidic corrosion of (super) ... 627 (176)

Elastic tongue elevator

... 446 (47)

Elasticity

Latex versus latex-free intraoral elastics—material properties concerning ... 607 (118)

Electromagnetic articulography

Correlation between ... palatography and logopedic diagnosis 442 (36)

Electromyograph

Cranio-mandibular disorders: treatment planning using the ... 587 (61)

Electromyographic signals

Influence of transcutaneous electrical nerve stimulation on the power spectrum of the ... 617 (149)

Enamel spots

Distinguishing post-orthodontic demineralized white ... from developmental white opacities by luminance profile analysis 628 (180)

Endochondral bone graft

Neovascularization of ... with demineralized intramembranous bone matrix 577 (31)

Endochondral bone matrix

Bone induction of demineralization of ... 628 (181)

Endosteal implants

Hard palate deformation in response to a quasi-static load on ... in different aged piglets 439 (27)

Endosteal palatal implants

Bone condensing and its significance in ... 449 (55)

Histologic evaluation of ... after orthodontic loading 436 (20)

Environmental stimulation

... of osteoblasts genome 433 (9)

Epithelia

Effects of dental materials on *in vivo* generated ... of gingival cells 100 (12)

Epithelium

Reconstitution of gingival ... *in vitro* 100 (13)

Eruption

Arrested tooth ... 445 (43)
Computer tomographic scans reveal incisor resorption after ectopic ... of maxillary canines 437 (21)

Eruption times

Mean ... of the primary and permanent teeth 602 (105)

Expansion

The side-effects of rapid maxillary ... on the width of the mandibular arch 569 (4)

Experience

Accuracy of positioning three bracket systems by operators with different levels of ... 595 (85)

Exposure dose

Image quality in 3D computed tomograms of the facial skeleton considering the ... 594 (81)

External root resorption

... as a reaction to constant and dissipating forces 455 (70)

Extraction

Stability following serial ... without subsequent orthodontic mechanotherapy 451 (60)

Extraction therapy

Variation in vertical dimension after ... 573 (18)

Extractions

Expression of collagen mRNA and alveolar bone formation after

orthodontic tooth movement and tooth ... of rat molars 441 (32)
Soft tissue profile changes resulting from orthodontic treatment with ... 590 (69)

Extreme short root anomalies

... 621 (160)

Face

Changes in the convexity of the ... in subjects with mandibular prognathism 613 (137)
Contemporary orthodontic treatment—the ... as a determinant of treatment choice 452 (61)
Physiognomic profile reconstruction of the ... by telerradiographs 601 (101)

Whose ... is it anyway? 578 (33)

Face mask

Cephalometric changes after treatment with ... 586 (58)
Post-treatment changes following the use of a ... in children 431 (5)

Face mask therapy

... during the early and late mixed dentition 630 (186)

Facebow

The retentive ability of a locking orthodontic ... 619 (155)

Facial asymmetries

Masticatory muscles in ... 442 (35)

Facial growth

... in growth hormone deficient children studied by 3D cephalometry 454 (66)
Influence of a bite jumping appliance treatment of ... depending on the vertical pattern 604 (110)

Facial profile changes

... in young adults treated with the Herbst appliance 618 (151)

Facial profiles

Whose face is it anyway?—the assessment of ... 578 (33)

Facial skeleton

Image quality in 3D computed tomograms of the ... considering the exposure dose 594 (81)

Facial soft tissue changes

Shape analysis of the ... following orthognathic surgery 593 (79)

Failed orthodontic brackets

Immediate reprocessing of ... 593 (78)

Familial study

A ... of craniofacial size 568 (1)

Fatigue

The effects of prolonged gum chewing on ... in the human jaw muscles 586 (56)

Fibroblasts

Actin polymerization in permeabilized human gingival ... 571 (11)

Field size reduction

... in lateral cephalograms for children younger than 12 years of age 572 (14)

Finite element analysis

... of stress in the periodontal tissues by orthodontic forces 614 (139)

Fixed appliances

Apical root resorption in maxillary cleft side teeth after treatment with ... 620 (157)

Fixed orthodontic appliances

The efficiency of different toothbrushes in patients with ... 581 (42)

Fluoride-releasing cements

A comparison of ... for orthodontic bonding 589 (68)

Foetal cephalometry

... in 3D ultrasound images of craniofacial deformities 436 (19)

Foetal craniofacial structures

Sonographic visualization of ... 432 (7)

Force

Angiogenic growth factors released in human pulp following orthodontic ... 97 (4)

Force magnitude

Effect of changing ... on the rate of orthodontic tooth movement 603 (106)

Force module

The ... of the Orthomate™ and its clinical relevance for treatment planning 585 (54)

Forced posterior crossbite

Long-term follow-up of early treatment of unilateral ... 626 (173)

Forces

External root resorption as a reaction to constant and dissipating ... 455 (70)

Finite element analysis of stress in the periodontal tissues by orthodontic ... 614 (139)

The effect of different orthodontic ... on osseointegrated implants 98 (9)

Viscoelastic response of the periodontal ligament to orthodontic ... 100 (14)

FR II treatment

Comparison of skeletal effects in cervical headgear and ... 447 (48)

Frictional forces

... of self-ligating and conventional brackets 615 (143)

Functional evaluation

Dentoskeletal changes with ... of appliance therapy 609 (125)

Functional orthopaedic treatment

A nuclear magnetic resonance study of temporomandibular changes following ... using the Würzburg approach 628 (179)

Fusion

... of the distal phalanx of the thumb 597 (90)

Histochemistry of the ... of the palatine processes in the rabbit 592 (76)

Futuristic technology

Accuracy of digital imaging and ... 440 (30)

Genetic studies

... of Van der Woude syndrome 456 (71)

Genioplasty

Stress distribution in the chin region following ... 576 (28)

Geometric differences

... between commercial brackets systems and individual ideal occlusion 603 (108)

Gingival cells

Effects of dental materials on *in vivo* generated epithelia of ... 100 (12)

Gingival epithelium

Reconstitution of ... *in vitro* 100 (13)

Gingival fibroblasts

Actin polymerization in permeabilized human ... 571 (11)
Effect of mechanical stress on the expression of mRNAs encoding for α and β chain integrins
MMPs and TIMPs in human ... 568 (3)

Gingival margin

Lower incisor labial movement and the position of the ... 96 (1)

Gingival papilla

Vascular changes in rat ... incident to mechanical stimulation 105 (28)

Gingival tissues

Changes in ... during orthodontic tooth movement 97 (6)

Glass-ionomer

Cariostatic effect of a resin-reinforced ... for bonding brackets *in vivo* 580 (39)

Glass-ionomer cement

Direct bonding to porcelain with resin-reinforced ... 598 (92)

Influence of chemical structure on the setting behaviour of ... 582 (46)

Growing patients

Monitoring TMJ function in Class I division 1 ... undergoing Bionator therapy 582 (44)

Growth factors

Angiogenic ... released in human pulp following orthodontic force 97 (4)

Growth hormone

Bone regeneration of calvarial defects using ... and polytetrafluoroethylene membranes 575 (24)

Growth hormone deficient children

Facial growth in ... studied by 3D cephalometry 454 (66)

Gum chewing

The effect of prolonged ... on pain and fatigue in the human jaw muscles 586 (57)

Hard palate deformation

... in response to a quasi-static load on endosteal implants in different aged piglets 439 (27)

Headgear activator

Treatment effects with the ... 573 (17)

Healing

Bone induction using biodegradable matrices for the ... of experimental cranial defects in dogs 616 (146)

Cells involved in the ... of intramembranous bone mixed with demineralized intramembranous bone matrix 576 (27)

Myofibroblasts and matrix components in ... palatal wounds in rats 578 (35)

Heat sterilization

Surface and mechanical changes in Ni-Ti wires after ... 630 (185)

Hemifacial microsomia

Developmental processes in a transgenic mouse model of ... 579 (36)
