

European Journal of Orthodontics

Volume 25 (2003) Indices

For abstracts, page numbers are given first followed by the abstract number in parentheses

- Abe, K., Suzuki, A. and Mishima, K.
Assessment of the relationship of points A and B to the Frankfort horizontal plane 498 (1)
- Abeleira, M., Fernández, J.-R. and Da-Torre, P.
Biomechanical analysis of mandibular osteodistraction using a three-dimensional finite element method 498 (2)
- Abu Alhaija, E. S. J. and Richardson, A.
Growth prediction in Class III patients using cluster and discriminant function analysis 599
- Ahmad, S., Papaioannou, S. and Breckon, J.
Investigation into the effects of mechanical deformation and oestrogen on bone remodelling 498 (3)
- Akay, A., Acar, A. and Alcan, T.
Evaluation of maximum bite force and anterior component of occlusal force in subjects with different sagittal and vertical skeletal relationships 426 (1)
- Al Taki, A., Alcan, T. and Sayinsu, K.
Cephalometric evaluation of a modified maxillary protraction facemask 499 (6)
- Alicino, C., Paini, L. and Farronato, G.
Vertical and sagittal displacements induced by frontal maxillary asymmetry 546 (197)
- Alicino, C., Tomasello, G. and Farronato, G.
Vertical and sagittal dimension corrections with functional appliance therapy in growing patients 498 (4)
- Aljubouri, Y. D., Millett, D. T. and Gilmour, W. H.
Laboratory evaluation of a self-etching primer for orthodontic bonding 411
- Allaff, A. and Sayinsu, K.
Bilateral maxillary molar distalization with modified slider 498 (5)
- Allais, D. and Melsen, B.
Does labial movement of lower incisors influence the level of the gingival margin? A case-control study of adult orthodontic patients 343
- Altinors, C., Firatli, S. and Yucekci, B.
Interleukin-1 β levels in gingival crevicular fluid during rapid and slow maxillary expansion 499 (7)
- Altug, A. T. and Erdem, D.
Comparison of three-dimensional bimetric maxillary distalizing arches with cervical headgear: dentofacial effects 499 (8)
- Andersson, E.-M., Larsson, E. and Øgaard, B.
Feeding, sucking and malocclusions in 3-year olds 499 (9)
- Apajalahti, S., Sorsa, T. and Ingman, T.
Matrix metalloproteinase -2, -8, -9, and -13 in gingival crevicular fluid of short root anomaly patients 365
- Aragaki, Y., Rensha, H. and Kawamoto, T.
Perioral forces of mandibular prognathism on the incisors and molars 500 (10)
- Arat, Z. M., Akçam, M. O. and Gökalp, H.
Long-term effects of chin-cap therapy on the temporomandibular joints 471
- Arat, Z. M., Akcam, M. O. and Nebioglu, O.
Differential diagnosis of skeletal Class III 500 (11)
- Arman Akgül, A., Abuhijleh, E. and Toygar, U.
Profile changes associated with different orthopaedic treatment approaches in Class III subjects 500 (12)
- Armstrong, C., Johnston, C., Burden, D. and Stevenson, M.
Localizing ectopic maxillary canines—horizontal or vertical parallax? 585
- Arsenina, O., Roguinski, V. and Popova, A.
Orthodontic treatment of patients with micrognathia after compression-distraction osteosynthesis 500 (13)
- Arte, S., Kotilainen, J. and Lahdenne, P.
Temporomandibular joint involvement in patients with early stage juvenile idiopathic arthritis 501 (14)
- Årtun, J.
Long-term prognosis of patients presenting with an open bite malocclusion 426 (2)
- Arun, T., Isik, F. and Sayinsu, K.
Growth changes following adenoidectomy performed at different growth periods 501 (15)
- Asscherickx, K. and Moradi Sabzevar, M.
Preliminary results of the bracket screw bone anchorage system in beagle dogs 501 (16)
- Asscherickx, K., Vande Vannet, B. and Wehrbein, H.
Lingual retainers bonded with hybrid and flowable composites—a clinical comparative study 501 (17)
- Atout, B., Acar, A. and Kucukkeles, N.
Cephalometric evaluation of anterior open bite treatment using NiTi archwires and anterior elastics in adolescents 502 (18)
- Axelsson, S., Kjær, I., Bjørnland, T. and Storhaug, K.
Longitudinal cephalometric standards for the neurocranium in Norwegians from 6 to 21 years of age 185
- Badran, S. A., Orr, J. F., Stevenson, M. and Burden, D. J.
Photo-elastic stress analysis of initial alignment archwires 117
- Baidauz, I., Kazaku, I. and Croitor, L.
Evaluation of the facial profile of prognathic patients 502 (19)
- Barbato, E., Cianfriglia, C. and Vozza, I.
Hypersensitivity to metals in orthodontic patients: comparison among males and females 502 (20)
- Basciftci, F. A., Uysal, T., Büyükerkmen, A. and Sari, Z.
The effects of activator treatment on the craniofacial structures of Class II division 1 patients 87
- Bauss, O., Schwestka-Polly, R. and Kiliaridis, S.
Pulpal and periodontal condition of autotransplanted immature third molars after orthodontic treatment 426 (3)
- Becker, A. and Chaushu, S.
Success rate and duration of orthodontic treatment for adult patients with palatally impacted maxillary canines 426 (4)
- Bellintani, C., Farronato, G. and Paini, L.
Classification criteria of juvenile idiopathic arthritis and temporomandibular joint involvement 502 (21)
- Bendeus, M., Hägg, U. and Rabie, A. B. M.
Headgear-activator with maximal jumping versus headgear-split-activator step-by-step jumping of the mandible 503 (22)
- Bendeus, M., Li, P. and Hägg, U.
Headgear-activator—is treatment response affected by differences in dento-facial morphology? 503 (23)
- Benson, P. E., Pender, N. and Higham, S. M.
Quantifying enamel demineralization from teeth with orthodontic brackets—

- a comparison of two methods. Part 1: repeatability and agreement 149
- Benson, P. E., Pender, N. and Higham, S. M. Quantifying enamel demineralization from teeth with orthodontic brackets—a comparison of two methods. Part 2: validity 159
