

Publisher's note

We are delighted to inform you about an important development for the benefit of authors and readers of *European Journal of Pharmaceutics and Biopharmaceutics*.

Colourful e-Products This initiative will allow figures that appear in black & white in the printed version to appear in colour, online, in ScienceDirect. This 'colourful e-products' solution provides a welcome step forward now that scientists increasingly access information online. Scientists in many disciplines need to be able to publish their work in colour, but the cost of colour printing in small, specialised journals can be prohibitive and we realise that not all scientists have appropriate funds to cover the charges.

Authors wishing to make use of this facility should ensure that submitted artwork is in an acceptable format (TIFF, EPS or MS Office files) and at the correct resolution. In addition, for colour online and black & white in print, both colour and black & white artwork (file and/or hard copy) must be provided.

There is *no extra charge* for authors who participate in this new facility. Further information on electronic artwork can be found at <http://authors.elsevier.com/artwork>.

To view the articles online please access the journal from the ScienceDirect website: <http://www.sciencedirect.com>.

Your feedback and comments are welcome.
