

Transfer of Analytical Methods

10th to 11th May 2012

Berlin, Germany

Course No. 6430

- Regulatory Requirements (FDA/Europe)
- How to Perform an Analytical Method Transfer
- Transfer Plan, Transfer Report
- Statistical Methods to Evaluate the Results
- Out of Specification Handling
- Examples, Possible Issues

Quality by Design Driven Development of Coated Dosage Forms

From Simulations to Setting-up of DoEs and Design Space Definition

19th to 20th June 2012

Renaissance Barcelona Airport Hotel, Barcelona, Spain

Course No. 6431

Umetrics textbook “Design of Experiments, Principles and Applications” is supplied with the training material

- Critical Quality Attributes, Critical Formulation & Process Parameters for Coated Dosage Forms, Risk Assessment
- Simulations, Design of Experiments, PAT & Design Space - From Theory to Practical Experience
- Hands on Workshop in small groups with expert instructors – To set up and analyse DoEs for real cases study data, working with MODDE 9.1 software on your own computer
