

European Journal of Pharmacology

The EUROPEAN JOURNAL OF PHARMACOLOGY publishes full-length papers, short communications and rapid communications on the mechanisms of action of chemical substances affecting biological systems. The journal also considers short reviews (not exceeding 12 pages in print) intended to debate recent advances in rapidly developing fields that are within its scope.

Full length papers and short communications are grouped under the following headings: Molecular and cellular pharmacology, Neuropharmacology and analgesia, Behavioural pharmacology, Cardiovascular pharmacology, Pulmonary, gastrointestinal and urogenital pharmacology, Immunopharmacology and inflammation, and Endocrine pharmacology.

Manuscripts submitted to the journal are accepted on the understanding that: (1) they are subject to editor review, (2) they have not been and will not be published in whole or in part in any other journal and (3) recommendations of the Declarations of Helsinki and Tokyo, for humans, and the European Community guidelines as accepted principles for the use of experimental animals have been adhered to. The European Journal of Pharmacology will, therefore, only consider manuscripts that describe experiments which have been carried out under approval of an institutional or local ethics committee. Authors must state in the manuscript that protocol complies with the particular recommendation and that approval of their protocols was obtained.

Abridged 'General instructions' for authors are published at the end of each issue. Essential detailed instructions will be found in the 'Notice to Authors', published once yearly (for 2003, in Vol. 458, Nos. 1–2, pages v–xi).

Founded in 1967. Founding editors: David de Wied and Jacques van Rossum.

Editors: W.H. GISPEN, Utrecht (chairman) F.P. NIJKAMP, Utrecht D.H.G. VERSTEEG, Utrecht

Assistant editor: F. ENGELS, Utrecht

Honorary editor: D. DE WIED
