

European Journal of Pharmacology

The EUROPEAN JOURNAL OF PHARMACOLOGY publishes full-length papers, short communications and rapid communications on the mechanisms of action of chemical substances affecting biological systems. The journal also considers short reviews (not exceeding 12 pages in print) intended to debate recent advances in rapidly developing fields that are within its scope.

Full length papers and short communications are grouped under the following headings: Molecular and cellular pharmacology, Neuropharmacology and analgesia, Behavioural pharmacology, Cardiovascular pharmacology, Pulmonary, gastrointestinal and urogenital pharmacology, Immunopharmacology and inflammation, and Endocrine pharmacology.

Manuscripts submitted to the journal are accepted on the understanding that: (1) they are subject to editor review, (2) they have not been and will not be published in whole or in part in any other journal and (3) recommendations of the Declarations of Helsinki and Tokyo, for humans, and the European Community guidelines as accepted principles for the use of experimental animals have been adhered to. The European Journal of Pharmacology will, therefore, only consider manuscripts that describe experiments which have been carried out under approval of an institutional or local ethics committee. Authors must state in the manuscript that protocol complies with the particular recommendation and that approval of their protocols was obtained.

Abridged ‘General instructions’ for authors are published at the end of each issue. Essential detailed instructions will be found in the ‘Notice to Authors’, published once yearly (for 2004, in Vol. 483, Nos. 2–3 pages iii–ix).

Founded in 1967. Founding editors: David de Wied and Jacques van Rossum.

Editors: W.H. GISPEN, Utrecht (chairman) F.P. NIJKAMP, Utrecht

Assistant editor: F. ENGELS, Utrecht

Honorary editor: D. DE WIED

Contents continued

Inhibition of the vascular-endothelial growth factor-induced intracellular signaling and mitogenesis of human endothelial cells by epigallocatechin-3 gallate T. Neuhaus, S. Pabst, S. Stier, A.-A. Weber, K. Schrör, A. Sachinidis, H. Vetter and Y.D. Ko	223	The self-administration of WIN 35,428 and cocaine: comparisons of satiety threshold and elimination half-life in rats A.B. Norman, W.R. Buesing, M.K. Norman, M.R. Tabet and V.L. Tsibulsky	281
Vinburnine decelerates [³H]N-methylscopolamine binding to recombinant human muscarinic M₁–M₄ acetylcholine receptors G. Maksay, T. Bíró and B. Kiss	229	Neuroleptic-like effects of γ-hydroxybutyrate: interactions with haloperidol and dizocilpine R.J. Sevak, C.P. France and W. Koek	289
NEUROPHARMACOLOGY AND ANALGESIA Evidence for participation of GABA_A receptors in a rat model of secondary hyperalgesia P.G. da Motta, A.P.C. Veiga, J.N. Francischi and M.A.K.F. Tatsuo	233	CARDIOVASCULAR PHARMACOLOGY Calcitonin gene-related peptide-induced suppression of atrial natriuretic peptide release through receptors for CGRP₁ but not for calcitonin and amylin F.L. Piao, C. Cao, J.H. Han, S.Z. Kim and S.H. Kim	295
Evidence for a central mechanism of action of S-(+)-ketoprofen M.I. Díaz-Reval, R. Ventura-Martínez, M. Déciga-Campos, J.A. Terrón, F. Cabré and F.J. López-Muñoz	241	PULMONARY, GASTROINTESTINAL AND UROGENITAL PHARMACOLOGY In vitro opioid activity profiles of 6-amino acid substituted derivatives of 14-O-methyloxymorphone M. Spetea, T. Friedmann, P. Riba, J. Schütz, G. Wunder, T. Langer, H. Schmidhammer and S. Fürst	301
Neurochemical changes of the extracellular concentrations of glutamate and aspartate in the nucleus accumbens of rats after chronic administration of morphine J. Sepúlveda, P. Oliva and E. Contreras	249	IMMUNOPHARMACOLOGY AND INFLAMMATION The effect of cocaine sensitization on mouse immunoreactivity M. Kubera, M. Filip, A. Basta-Kaim, E. Nowak, J. Siwanowicz, A. Zajicova, V. Holan, M. Maes and W. Lasoń	309
Biphasic modulation by nitric oxide of caspase activation due to malonate injection in rat striatum A. Paucard, B. Palmier, N. Croci, F. Taillieu, M. Plotkine and I. Margail	259	Effect of nitric oxide releasing paracetamol and flurbiprofen on cytokine production in human blood M. Marshall and P.K. Moore	317
Patterns of serotonin- and 2-methylserotonin-induced pain may reflect 5-HT₃ receptor sensitization J. Giordano and H. Gerstmann	267	RAPID COMMUNICATION Protonation effect on drug affinity R.B. Raffa, G.W. Stagliano and S.D. Spencer	323
BEHAVIOURAL PHARMACOLOGY Cognitive side effects in rats caused by pharmacological agents used to prevent soman-induced lethality T. Myhrer, S. Enger and P. Aas	271	<i>Author index</i>	325
		<i>Keyword index</i>	329
