

EUROPEAN FOUNDATION FOR PLANT PATHOLOGY

Founded 1990

The EFPP promotes scientific and technical cooperation in the area of plant health in Europe and facilitates the exchange of scientific information between plant pathologists who are members of national or regional Societies in the field of plant pathology or related fields.

To fulfil the object, the foundation:

- a. organizes meetings, symposia and conferences
- b. collects and disseminates information
- c. advises, collaborates and maintains liaison with relevant national and international organizations
- d. encourages formation of national societies of plant pathologists within Europe and of international groups of plant pathologists specialised in certain fields
- e. undertakes any lawful activity in pursuance of the object of the foundation
- f. remains a scientific organization not engaged in any form of political activity and without the objective of financial gain

The European Foundation for Plant Pathology offers:

- On line communications with the EFPP Secretariat
- Easy access to the national societies of plant pathology (in Europe)
- Subscription at a reduced membership rate to *European Journal of Plant Pathology*
- An EFPP Conference every two years
