

LIST OF CONTENTS

NUMBER 1

Y. Sicotte	1	Polynomial series expansion of the molecular weight distribution function
A. Kumar, S. K. Gupta and R. Mohan	7	Effect of shear rate on the rate of radical polymerization of methyl methacrylate
S. D. Baruah and N. N. Dass	11	Charge transfer initiation of methylmethacrylate by isopropylamine
K. K. Chee	15	Evaluation of unperturbed and thermodynamic parameters of polymer solutions from viscometric data
A. J. Chapman and N. C. Billingham	21	Preparation and (¹³ C)NMR spectroscopy of stereoregular poly(methacrylic acid)
A.-M. Jendrychowska-Bonamour et J. Millequant	25	Relations entre la structure et les propriétés des membranes de polytetrafluoroéthylène greffé—I. Membranes monogreffées carboxyliques ou basiques
A.-M. Jendrychowska-Bonamour et J. Millequant	39	Relations entre la structure et les propriétés des membranes de polytetrafluoroéthylène greffé—II. Membranes bifonctionnelles
A.-M. Jendrychowska-Bonamour et J. Millequant	51	Relations entre la structure et les propriétés des membranes de polytetrafluoroéthylène greffé—III. Membranes non-ionisables contenant de la poly- <i>N</i> -vinylpyrrolidone
M. Mazurek, M. Scibiorek, J. Chojnowski, B. G. Zavin and A. A. Zhdanov	57	Thermodynamic enhancement of oligomers in dynamic living polymer system involving end-group interaction. Distribution of living oligomers in equilibrated polydimethylsiloxanes
V. B. Ivanov, S. F. Burlatsky, N. A. Rozenboym and V. Ya Shlyapintokh	65	Diffusion mechanism of the synergism of u.v.-absorbers and antioxidants
J. Gilbert and J. R. Startin	73	The determination of the transformation products of epoxides used in the heat stabilization of poly(vinyl chloride)
M. Sato and M. Yokoyama	79	Preparation of phosphorus-containing polymers—XX. Synthesis of phenoxaphosphine-containing polyesters
J. Brzeziński and Z. Dobkowski	85	Calibration of gel permeation chromatography system for polycarbonate
P. Ghosh, S. Jana and S. Biswas	89	Photopolymerization of methyl methacrylate using tetrahydrofuran sulphur dioxide complex as photo-initiator
S. Dabi and A. Zilkha	95	Effect of polar aprotic solvents on the trimerization of phenyl isocyanate by organometallic catalysts

NUMBER 2

P. S. Vishwanathan, U. S. Tewari and Padma Vasudevan	105	Dielectric studies on sulphonated novolacs
I. Naito, K. Koga, A. Kinoshita and W. Schnabel	109	On the photolysis of homo- and copolymers of phenylisopropenylketone
N. Grassie and D. MacKerron	113	Synthesis of a series of polyurethanes containing phosphorus
L. N. Patnaik, R. K. Satapathy, S. N. Patnaik, B. K. Misra and M. K. Rout	117	The kinetics of retardation by phenol of the polymerization of acrylonitrile

- P. Guerin, S. Boileau, F. Subira
et P. Sigwalt
- P. Guerin, S. Boileau et P. Sigwalt
- C. Rochas, A. Domard and
Marguerite Rinaudo
- N. A. Weir and T. H. Milkie
- S. Cinnamon, S. Freireich and
A. Zilkha
- K. Volka, E. Czako and Z. Vymazal
- Z. Vymazal, E. Czako, K. Volka,
J. Štěpek, R. Lukáš, M. Kolínský
and K. Bouchal
- D. Brion et G. Mavel
- J. Ansorena, J. J. Iruin and
G. M. Guzmán
- B. B. Cooray and G. Scott
- J. Škerjanc, G. Vesnaver and D. Dolar
- A. Fehérvári, T. Földes-Bereznich
and F. Tüdös
- M. Ilavský, E. Talašova and K. Dušek
- 121 Polymérisation en phase homogène du méthyl-2
thiirane amorcée par les thiolates de cadmium et de
zinc. Influence des interactions monomère-métal sur la
stéréoregularité des polymères
- 129 Polymérisation stéréosélective en phase homogène du
méthyl-2 thiirane amorcée par des semences optique-
ment actives
- 135 Aqueous GPC of electrolytes and polyelectrolytes
- 141 Photolysis of poly(*p*-isopropyl styrene)
- 147 Adhesion properties of poly(hexamethylene diiso-
cyanate) obtained by organotin catalysis
- 149 Effect of stabilizers in the thermal treatment of PVC—
VII. An i.r. spectroscopic study of the association of
stearic acid in PVC
- 151 Effect of stabilizers in the thermal treatment of PVC—
VIII. An investigation of double bonds in PVC in the
presence of Ba and Cd stearates
- 159 Etude par spectroscopie de photoélectrons (XPS) de la
surface de profilés à base de PVC
- 165 Solvent influence on the viscosity-temperature relation-
ship for dilute polybutadiene solutions
- 169 The effect of thermal processing on PVC—VI. The role
of hydrogen chloride
- 179 Heats of dilution of polystyrenesulphonates in dioxane-
water mixtures
- 185 Kinetics of free radical polymerization—XXXI. Sol-
vent effect of the polymerization rate of ethyl acrylate
- 191 The photoelastic behaviour of swollen networks
of polymethacrylic acid

NUMBER 3

- B. Nyström and J. Roots
- A. Mitsou-Clappas et K. Viras
- M. Lambla et H. P. Schreiber
- Ch. B. Tsvetanov, Yu. Ye. Eizner
and B. L. Erussalimsky
- Liliane Merle-Aubry and Yves Merle
- A. J. Amass and T. A. McGourtey
- 201 Diffusion transport of sucrose, β -alanine and bovine
serum albumin in aqueous solutions of hydroxypropyl
cellulose
- 205 Transition conformationnelle du chlorure de polyvinyle
en solution dans des mélanges binaires de solvants
polaires et non-polaires
- 211 Relations entre les caractéristiques physico-chimiques
des charges et les propriétés mécaniques des polymères
(PVC) plastifiés et charges
- 219 Structure of terminal and penultimate units of a living
chain of polyacrylonitrile with lithium counterion.
Quantum chemical investigation
- 227 Determination of microtacticity of poly(vinylketones)
and their derivatives by NMR spectroscopies of carbon-
13 and proton
- 235 The mono-metallic initiation of the metathesis poly-
merization of cyclopentene—I. Effect of oxygen on the
activity of the catalyst

- Á. Rehák and F. Tüdös
- J. Virt, L. Rosík, J. Kovářová and J. Pospíšil
- C. Booth, J.-L. Forget, I. Georgii, W. S. Li and C. Price
- V. Petraccone, A. Roviello, A. Sirigu, A. Tuzi, E. Martuscelli and M. Pracella
- A. D. Litmanovich
- V. P. Shibaev, V. M. Moiseenko, Ya. S. Friedzon and N. A. Platé
- C. P. Pinazzi, J. Esnault et A. Pleurdeau
- J. Żurawska-Országh, A. Orzeszko and T. Chreptowicz
- 241 Kinetics of radical polymerization—XXXII. Determination of the rate of initiation in bulk polymerization of acrylonitrile
- 247 Antioxidants and stabilizers—LXXV. Effect of 2,6-ditert.-butyl-4-methylphenol on the photooxidation of high-impact polystyrene
- 255 Gel permeation chromatography of poly(styrene-co-divinylbenzene) microgels. Effect of electrolyte concentration in the solvent system dimethylformamide plus lithium bromide
- 261 Solid state polymorphism of a mesophasic polymer. Poly[oxydodecanedioxy-1,4-phenylene-(2-methyl-vinylene)1,4-phenylene]
- 269 Changes of polymer reactivity in the course of macromolecular reaction
- 277 Specific features of liquid-crystalline comb-like polymers with mesogenic groups
- 283 Synthèse de polymères possédant des fonctions du type carbonat-alcool et thiol carbonate-alcool en extrémités de chaînes
- 289 Investigation on chemical cyclization of polyamic acid

- 299 Influence de la structure sur les propriétés mésomorphes des polyesters—I
- 303 Influence de la structure sur les propriétés mésomorphes des polyesters—II
- 307 Nouveaux types de polyesters chiraux
- 309 Photodegradation of poly(vinyl esters)—I. Formation and quantitative measurement of volatile products
- 313 Photodegradation of poly(vinyl esters)—II. Volatile product formation and changes in the absorption spectra and molecular mass distributions
- 319 Photodegradation of poly(vinyl esters)—III. Photolysis mechanism for both polymeric and low molecular mass esters
- 325 Interaction of divalent ions of copper, magnesium and zinc with isotactic polymethacrylic acid
- 333 Radiation crosslinking to poly(vinyl chloride) enhanced by a tetrafunctional coagent
- 339 Organotin polymers—II. Copolymerization parameters for tributyltin methacrylate with methyl acrylate, ethyl acrylate, butyl acrylate and acrylonitrile

A. Nagaty, F. Abd-El-Mouti and O. Y. Mansour	343	Graft polymerization of vinyl monomers onto starch by use of tetravalent cerium
D. Davous and B. Sebille	347	Ternary macromolecular gels made from propylene carbonate including an inorganic salt. Influence of the salt on mechanical properties of such gels
M. D. K. Kumaraswamy, K. P. Rao and K. R. Joseph	353	Grafting onto naturally occurring macromolecules. Gelatin graft copolymers
P. Aubert, J. Sledz, F. Schué et J. Prud'homme	361	Etude structurale du poly(pentadiene-1,3) par RMN du proton à 100 et 220 MHz
Announcement	i	

NUMBER 5

G. Glöckner	371	Evaluation of excluded-volume parameters from light- scattering results by means of graphical procedures
L. Gargallo, D. Radic and I. Katime	383	Polymer co-solvent systems—I. Viscometric behaviour of poly(<i>p</i> -tert-butylphenyl methacrylate) in acetone/ cyclohexane
V. N. Tsvetkov, N. V. Pogodina and L. V. Starchenko	387	Optical anisotropy and rigidity of molecules poly- cyclohexanamide, polycaprolactam and their copolymers
H. Boudevska, C. Brutchkov et Q. T. Pham	393	Etude par résonance magnétique nucléaire du carbone- 13 des polyméthacrylates de naphthyle-1 et de naphthyle- 2 obtenus par voie radicalaire
R. Crawford, D. Paul and Y. Adeebnia	401	Microhardness and density distributions in polymeric powder compacts
D. C. Pepper	407	The kinetics of slow-initiated living polymerizations
C. David, D. Baeyens-Volant and M. Piens	413	Luminescence studies in polymers—XI. Acenaph- thylene polymers and copolymers with methylmeth- acrylate: polarization, yield and decay of the fluores- cence as a function of temperature in solution
M. Azori and F. Tüdös	425	Investigation of the macromolecular stable free nitrox- ide radical—II. Polystyrene with tert.-butyl nitroxide groups at the <i>meta</i> -position
H. Braselmann, J. Vacík, J. Kopeček and D. Kirstein	431	Regulation of transport in artificial membranes by environmental hydrogen-ion concentration
Claire Lecat-Tillier, Françoise Lafuma et C. Quivoron	437	Synthèse de polyacrylamides porteurs de groupements iminodiacétate et étude de leur pouvoir de complexa- tion vis-à-vis de quelques cations métalliques
F. Candau, C. Dufour, J. François, H. Levy, E. Marchal, Y. Layec and C. Wolff	447	Anomalous behaviour of poly(γ -benzyl-L-glutamate) in helicogenic solvents in relation to the polymerization conditions
N. Mohanty, B. Pradhan and M. C. Mahanta	451	A study on sorbitol-ceric ion initiated polymerization of acrylonitrile
P. Ghosh, G. Mukhopadhyay and R. Ghosh	457	Effect of benzophenone on the H ₂ O ₂ -induced photo- polymerization of methyl methacrylate

- 1023 Photobehaviour of phenyl-containing methacrylate polymers—II. Dependence upon the number of chromophores in the structural unit
- 1027 Evidence of a crystal-crystal transition in poly(α,α -diethyl- β -propiolactone)
- ### NUMBER 11
- 1031 Addition de *n*-butyle mercaptan sur des oligomères polybutadiènes fonctionnels. Propriétés des oligomères modifiés et des polyuréthanes linéaires correspondants
- 1037 The effects of reprocessing on polymers—I. Low density polyethylene
- 1043 The structure of low conversion polymers of ethylene dimethacrylate
- 1047 Organotin polymers—III. Copolymerization and terpolymerization of tributyltin acrylate with methyl methacrylate, propyl methacrylate, butyl methacrylate and acrylonitrile
- 1051 Molecular weight determination for 1,2,1,2-polypropadiene
- 1055 Autoinflammation et stabilité thermique de la poly(vinyl 4 pyridine) quaternisée—I. Cas des poly(vinyl 4, *N*-alcoyle pyridinium)
- 1063 Autoinflammation et stabilité thermique de la poly(vinyl 4 pyridine) quaternisée—II. Stabilité thermique du bromure de poly(*N*(oxo 3 butyl) vinyl 4 pyridinium)
- 1069 Autoinflammation et stabilité thermique de la poly(vinyl 4 pyridine) quaternisée—III. Autoinflammation du bromure de poly(*N*(oxo 3 butyl) vinyl 4 pyridinium)
- 1075 The Ritter reaction of poly(acrylonitrile) with tert.-butyl alcohol
- 1079 Crystallinity and transitions in ethylene hexene copolymers
- 1089 Geometrical and energetical feasibility of a highly extended chain conformation for isotactic polystyrene
- 1093 Polythioamides aliphatiques—I. Synthèse des bis(di-thioesters)
- 1101 Polythioamides aliphatiques—II. Synthèse et identification des polythioamides
- 1109 Stabilisation thermique du PVC. Relation structure-efficacité mode d'action des stabilisants organostanniques
- 1115 Polymerization of methylmethacrylate with cetyl benzyl dimethyl ammonium chloride and benzoyl peroxide as redox initiator system
- 1121 Synthèse de substances macromoléculaires renfermant des motifs monomères dérivés de colorants—XIX. Synthèse d'oligoéthers et d'oligoesters colorés par structure
