

ANNOUNCEMENT

The Second International Meeting on "Polymer-Supported Reactions in Organic Chemistry" will be held at the University of Lancaster, U.K. from 3-5 July 1984

The meeting is being organised by the Royal Society of Chemistry. It will deal with the preparation and application of polymer-supported reagents, catalysts and protecting groups, polymeric separation media which interact specifically with substrates, polymer-supported enzymes and polymer-supported cells. Further information may be obtained from:

Dr P. Hodge,
Department of Chemistry,
University of Lancaster,
Lancaster LA1 4YA,
England.
