

# European Journal of Plant Pathology

Contents Volume 105, No. 6 September 1999

## Mini review

- Genetic variation in *Spiroplasma citri*** 519–533  
U. Melcher, J. Fletcher

## Research articles

- Inheritance of resistance to *Stenocarpella macrospora* (Earle) ear rot of maize in the mid-altitude zone of Nigeria** 535–543  
R. Olatinwo, K. Cardwell, A. Menkir, M. Deadman, A. Julian
- Genetic diversity of *Venturia inaequalis* across Europe** 545–552  
I. Tenzer, C. Gessler
- Molecular characterization of an almond isolate of hop stunt viroid (HSVd) and conditions for eliminating spurious hybridization in its diagnosis in almond samples** 553–558  
M.C. Cañizares, J.F. Marcos, V. Pallás
- Virulence variation and RAPD polymorphism in African isolates of *Phaeoisariopsis griseola* (Sacc.) Ferr., the causal agent of angular leaf spot of common bean** 559–569  
J.P. Busogoro, M.H. Jijakli, P. Lepoivre
- Loss of viability of *Dematophora necatrix* in solarized soils** 571–576  
C.J. López-Herrera, R.M. Pérez-Jiménez, M.J. Basallote-Ureba, T. Zea-Bonilla, J.M. Melero-Vara
- Biological mode of action of the fungicide, flusulfamide, against *Plasmodiophora brassicae* (clubroot)** 577–584  
S. Tanaka, S.-i. Kochi, H. Kunita, S.-i. Ito, M. Kameya-Iwaki
- Infection of linseed by *Alternaria linicola*; effects of inoculum density, temperature, leaf wetness and light regime** 585–595  
I. Vloutoglou, B.D.L. Fitt, J.A. Lucas
- Pathogenicity, electrophoretic characterisation and *in planta* detection of the cocoyam root rot disease pathogen, *Pythium myriotylum*** 597–607  
J.T. Tambong, J. Poppe, M. Höfte
- Genetic relationships among *Verticillium dahliae* isolates from cotton in Greece based on vegetative compatibility** 609–616  
K. Elena
- Short communications**
- Potato virus Y from petunia can cause symptoms of potato tuber necrotic ringspot disease (PTNRD)** 617–621  
N. Boonham, M. Hims, I. Barker, N. Spence
- Location of Prunus necrotic ringspot Ilarvirus within pollen grains of infected nectarine trees: evidence from RT-PCR, dot-blot and *in situ* hybridisation** 623–627  
F. Aparicio, M.A. Sánchez-Pina, J.A. Sánchez-Navarro, V. Pallás

**The European Journal of Plant Pathology** is an international journal that publishes original research articles dealing with fundamental and applied aspects of plant pathology. Thus, in addition to bacteriological, mycological, and virological topics, nematological and plant protection studies in general are also included. All contributions should be submitted in English and are subject to peer reviewing. Papers will be published within five months after acceptance, there are no page charges for publication, and fifty offprints will be supplied free of charge.

**Photocopying.** *In the U.S.A.:* This journal is registered at the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923.

Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by Kluwer Academic Publishers for users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the fee of USD 16.00 per copy is paid directly to CCC. For those organizations that have been granted a photocopy licence by CCC, a separate system of payment has been arranged. The fee code for users of the Transactional Reporting Service is 0929-1873/99/USD 16.00.

Authorization does not extend to other kinds of copying, such as that for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale.

*In the rest of the world:* Permission to photocopy must be obtained from the copyright owner. Please apply to Kluwer Academic Publishers, P.O. Box 17, 3300 AA Dordrecht, The Netherlands.

The *European Journal of Plant Pathology* is published nine times per year.

Subscription price 1999 (Volume 105, 9 issues): NLG 1346.00/USD 673.00 including postage and handling.

Published by Kluwer Academic Publishers, Spuiboulevard 50, P.O. Box 17, 3300 AA Dordrecht, The Netherlands, and 101 Philip Drive, Norwell, MA 02061, U.S.A.

*Printed on acid-free paper*
