

Volume contents

Volume 113 No. 1 September 2005

Detection and identification of <i>Phytophthora</i> species in southern Italy by RFLP and sequence analysis of PCR-amplified nuclear ribosomal DNA	1–14
I. Camele, C. Marcone and G. Cristinzio	
Distribution of mating types and diversity in virulence of <i>Didymella rabiei</i> in Israel	15–24
J. Lichtenzweig, E. Gamliel, O. Frenkel, S. Michaelido, S. Abbo, A. Sherman and D. Shtienberg	
Identification and partial characterisation of <i>Lettuce big-vein associated virus</i> and <i>Mirafiori lettuce big-vein virus</i> in common weeds found amongst Spanish lettuce crops and their role in lettuce big-vein disease transmission	25–34
J.A. Navarro, F. Botella, A. Marhuenda, P. Sastre, M.A. Sánchez-Pina and V. Pallas	
Genetic variability of central European isolates of the <i>Fusarium graminearum</i> species complex	35–45
B. Tóth, Á. Mesterházy, Z. Horváth, T. Bartók, M. Varga and J. Varga	
Development of PCR-based detection methods for the quarantine phytopathogen <i>Synchytrium endobioticum</i>, causal agent of potato wart disease	47–57
P.H.J.F. van den Boogert, M.P.E. van Gent-Pelzer, P.J.M. Bonants, S.H. De Boer, J.G.N. Wander, C.A. Lévesque, G.C.M. van Leeuwen and R.P. Baayen	
Induction of systemic resistance against bacterial wilt in <i>Eucalyptus urophylla</i> by fluorescent <i>Pseudomonas</i> spp	59–70
L.X. Ran, Z.N. Li, G.J. Wu, L.C. van Loon and P.A.H.M. Bakker	
Host specialization not detected among isolates of the EC-1 lineage of <i>Phytophthora infestans</i> attacking wild and cultivated potatoes in Peru	71–81
G. Garry, A. Salas, G.A. Forbes, W. Perez, M.S. Cruz and R. Nelson	
Effect of phenylpyrrole-resistance mutations on ecological fitness of <i>Botrytis cinerea</i> and their genetical basis in <i>Ustilago maydis</i>	83–100
B.N. Ziogas, A.N. Markoglou and V. Spyropoulou	
<i>Short communications</i>	
Occurrence of resistance-breaking populations of root-knot nematodes on tomato in Greece	101–105
E.A. Tzortzakakis, M.A.M. Adam, V.C. Blok, C. Paraskevopoulos and K. Bourtzis	
The database of PCR primers for phytopathogenic fungi	107–109
S. Ghignone and Q. Migheli	
Book review	111
Instruction for authors	113–117

Volume 113 No. 2 October 2005

Major review

Plant viruses transmitted by thrips	119–157
D.R. Jones	
<i>In vitro</i> selection of maize rhizobacteria to study potential biological control of <i>Aspergillus</i> section <i>Flavi</i> and aflatoxin production	159–171
A.V. Nesci, R.V. Bluma and M.G. Etcheverry	
Usefulness of the detached pod test for assessment of cacao resistance to <i>Phytophthora</i> pod rot	173–182
A.D. Iwaro, J.-M. Thévenin, D.R. Butler and A.B. Eskes	
Intraspecific evolution of <i>Rhizoctonia solani</i> AG-1 IA associated with soybean and rice in Brazil based on polymorphisms at the ITS-5.8S rDNA operon	183–196
M.B. Ciampi, E.E. Kuramae, R.C. Fenille, M.C. Meyer, N.L. Souza and P.C. Ceresini	
Effect of combined treatment of pasteurisation and <i>Coniothyrium minitans</i> on sclerotia of <i>Sclerotinia sclerotiorum</i> in soil	197–209
A.J. Bennett, C. Leifert and J.M. Whipps	
Resistance to dicarboximide fungicides in <i>Stemphylium vesicarium</i> of Italian pear orchards	211–219
G. Alberoni, M. Collina, D. Pancaldi and A. Brunelli	
Book review	221–222

Volume 113 No. 3 November 2005

<i>Sunflower chlorotic mottle virus</i> in compatible interactions with sunflower: ROS generation and antioxidant response	223–232
M.C. Arias, C. Luna, M. Rodríguez, S. Lenardon and E. Taleisnik	
Ochratoxin A-producing fungi in Spanish wine grapes and their relationship with meteorological conditions	233–239
N. Bellí, D. Mitchell, S. Marín, I. Alegre, A.J. Ramos, N. Magan and V. Sanchis	
Effect of juglone on active oxygen species and antioxidant enzymes in susceptible and partially resistant banana cultivars to Black Leaf Streak Disease	241–254
A. El Hadrami, D. Kone and P. Lepoivre	
Detection and molecular characterisation of an alfalfa phytoplasma in Argentina that represents a new subgroup in the 16S rDNA Ash Yellows group (<i>'Candidatus Phytoplasma fraxini'</i>)	255–265
L. Conci, N. Meneguzzi, E. Galdeano, L. Torres, C. Nome and S. Nome	
Characterization of <i>Phytophthora clandestina</i> races on <i>Trifolium subterraneum</i> in Western Australia	267–274
M.P. You, M.J. Barbetti and K. Sivasithamparam	
Germination of <i>Plasmodiophora brassicae</i> resting spores stimulated by a non-host plant	275–281
H. Friberg, J. Lagerlöf and B. Rämert	
Interactions between <i>Barley yellow dwarf virus</i> and <i>Fusarium</i> spp. affecting development of <i>Fusarium</i> head blight of wheat	283–295
Y. Liu and H. Buchenauer	

Field evaluation for resistance to the black rot pathogen <i>Xanthomonas campestris</i> pv. <i>campestris</i> in cabbage (<i>Brassica oleracea</i>)	297–308
B.D. Jensen, S.M.S. Massomo, I.S. Swai, J. Hockenhull and S.B. Andersen	
<i>Short communications</i>	
Nandina mosaic virus is an isolate of <i>Plantago asiatica</i> mosaic virus	309–313
P.L. Hughes, F. Harper, M.T. Zimmerman and S.W. Scott	
<i>Pseudomonas aeruginosa</i> inhibits the plant cell wall degrading enzymes of <i>Sclerotium rolfsii</i> and reduces the severity of groundnut stem rot	315–320
G.K. Kishore, S. Pande, J.N. Rao and A.R. Podile	
Relationships of <i>Barley yellow dwarf virus</i>-PAV and <i>Cereal yellow dwarf virus</i>-RPV from Iran with viruses of the family Luteoviridae	321–326
M. Rastgou, B. Khatabi, A. Kvarnheden and K. Izadpanah	
Book review	327–328

Volume 113 No. 4 December 2005

Mini-review

Epidemiological characteristics of angular leaf spot of bean: a systems analysis	329–341
D. Alloreant and S. Savary	
Analysis of accumulation patterns of <i>Barley yellow dwarf virus</i>-PAV (BYDV-PAV) in two resistant wheat lines	343–355
F. Chain, G. Riault, M. Trottet and E. Jacquot	
Population dynamics of <i>Monosporascus cannonballus</i> ascospores in marsh soils in eastern Spain	357–365
R. Beltrán, A. Vicent, R. Sales Jr., J. García-Jiménez and J. Armengol	
Recovery of young olive trees from <i>Verticillium dahliae</i>	367–375
F.J. López-Escudero and M.A. Blanco-López	
Quantifying and modelling the mobilisation of inoculum from diseased leaves and infected defoliated tissues in epidemics of angular leaf spot of bean	377–394
D. Alloreant, L. Willocquet, A. Sartorato and S. Savary	
Influence of stigmatic morphology on flower colonization by <i>Erwinia amylovora</i> and <i>Pantoea agglomerans</i>	395–405
F. Spinelli, F. Ciampolini, M. Cresti, K. Geider and G. Costa	
Genetic variation and population structure of the grape powdery mildew fungus, <i>Erysiphe necator</i>, in southern France	407–416
J.-P. Péros, C. Troulet, M. Guerriero, C. Michel-Romiti and J.-L. Nottoghem	
Effect of organic management of soils on suppressiveness to <i>Gaeumannomyces graminis</i> var. <i>tritici</i> and its antagonist, <i>Pseudomonas fluorescens</i>	417–435
G.A. Hiddink, A.H.C. van Bruggen, A.J. Termorshuizen, J.M. Raaijmakers and A.V. Semenov	
Book reviews	437–439
Volume contents	441–443
Author index	445
