

## ERRATA

- S. Kijimoto and S. Hakomori, Contact-dependent enhancement of net synthesis of Forssman glycolipid antigen and hematoside in NIL cells at the early stage of cell-to-cell contact, *FEBS Letters* 25 (1972) 38–42.
- p. 40, line 3 of legend to fig. 1 should read as:  
“2: total of highly confluent NIL cells; 3: total of early stage of confluent NIL cells, namely explanation for the well no. 2 and 3 should be reversed. The densest line was given by the glycolipid of early stage of confluent NIL cells”.
- T. Higashinakagawa and T. Mita, Novel features of DNA-dependent RNA polymerase from Protozoan *Tetrahymena pyriformis*, *FEBS Letters* 25 (1972) 73–76.
- p. 76, in line 2 of legend to fig. 3 should read “0.01 M ammonium sulphate in TGMED in the presence...”
- Y. Moulé and C. Frayssinet, Enzyme conversion of aflatoxin B<sub>1</sub> to a derivative inhibiting *in vitro* transcription, *FEBS Letters* 25 (1972) 52–56.
- p. 55, the sentence beginning in the 20th line of the Discussion should read as: “The foregoing results suggest that the compound X containing fraction corresponds to more than one molecular species, the relative...”
- C. Storelli, H. Vögeli and G. Semenza, Reconstitution of a sucrase-mediated sugar transport system in lipid membranes, *FEBS Letters* 24 (1972) 287–292.
- Please note that the first two lines of the left-hand column on page 291 should appear at the head of the similar column on page 289. (Beginning under the legend to fig. 1a.)
