

Announcement

9th FEBS MEETING

Budapest, Hungary, 25–30 August 1974

The Meeting will be organized by the Hungarian Biochemical Society under the auspices of the Hungarian Academy of Sciences, and will be held in the Technical University. The Scientific Programme is planned to include:

A. PLENARY LECTURES

B. SYMPOSIA

1. Proteins of contractile systems.
2. Mechanism of action and regulation of enzymes.
3. Biochemistry of the cell nucleus.
4. Regulation of transcription.
5. Post-synthetic modification of macromolecules.
6. Biomembranes: Structure and function.
7. Antibody structure and molecular immunology.

C. COLLOQUIA

- I. Regulation of amino acid biosynthesis.
- II. Properties of purified cholinergic and adrenergic receptors.
- III. Analysis and simulation of biochemical systems.

D. FREE COMMUNICATIONS:

in the fields covered by symposia and colloquia and on various other topics, with special emphasis on: biochemistry and molecular biology of blood coagulation; environmental biochemistry; antitumor and antiviral agents; new techniques in biochemistry.

Abstract deadline: 15 March 1974.

An International Exhibition of instruments, glassware, chemicals and books will be held during the meeting.

Further information and Preliminary Registration forms (to be returned *by 31 October 1973*) from: The Secretariat, 9th FEBS Meeting, H-1502 Budapest, P.O. Box 7, Hungary.
