

MASTER SUBJECT INDEX

Acceleration of the deactivation reactions of the water-splitting enzyme system Y <i>see</i> ADRY-effect	
Acetate: enzyme ligase, reactivation of isocitrate lyase	58 (1975) 322
Acetoacetyl-CoA synthetase, role in lipogenesis	60 (1975) 7
S-Acetophenone-glutathione, interaction with γ -glutamyltranspeptidase	54 (1975) 319
Acetylcarnitine	59 (1975) 230
Acetylcholine	
manganese-ATP complex	59 (1975) 57
receptor	
action of ceruleotoxin	59 (1975) 212
protein	54 (1975) 1; 57 (1975) 267
Acetylcholinesterase	
interactions with lectins	53 (1975) 282
radioactive labelling	59 (1975) 36
Acetyl-CoA carboxylase, effect of phenobarbital induction	52 (1975) 240
N-Acetylglucosamine	
conformational changes in lysozyme	56 (1975) 362
incorporation into the slime sheath of pseudoplasmodia	52 (1975) 262
derivatives,	
binding to lysozyme	55 (1975) 165
S-Acetyl-glutathione, interaction with γ -glutamyl transpeptidase	54 (1975) 319
β -N-Acetylglucosaminidase	53 (1975) 243
N-Acetyl-L-leucyl-L-leucyl-L-phenylalinal	
effect on α -chymotrypsin	56 (1975) 81
N-Acetyl-L-leucyl-L-phenylalinal	
effect on α -chymotrypsin	56 (1975) 81
N-Acetyl methionyl tRNA, hydrolysis stimulating factor	53 (1975) 159
N-Acetyl-neuraminic acid	
-binding protein	57 (1975) 245
n.m.r.-study of conformation	60 (1975) 327
N-Acetyl-phenylalanyl-tRNA,	
effect of fusidic acid on puromycin binding on ribosomes	51 (1975) 177
O-Acetyl-L-serine acetate lyase	58 (1975) 164
Acrolein	57 (1975) 223
Acrosin	54 (1975) 269; 56 (1975) 115
Acrylamide, protective effect on thermoinactivation of proteins	51 (1975) 152
Actin	
effect of phalloidin and cytochalasin B	54 (1975) 263
regulatory proteins and myosin on fluorescence	60 (1975) 164
effect on calcium-dependent ATPase of smooth muscle	60 (1975) 81
fluorescence study of binding to ATP and ADP	52 (1975) 8
inhibition of DNase I	57 (1975) 51
interaction with deoxyribonuclease I	60 (1975) 34
phalloidin	54 (1975) 73
isolation from liver plasma membranes	59 (1975) 117
presence in adrenal medulla	56 (1975) 327
Actinomycin	57 (1975) 223
Actomyosin-like protein	57 (1975) 198
AcylCoA	56 (1975) 356
AcylCoA: diglyceride acyltransferase	54 (1975) 183

AcylCoA: monoglyceride acyltransferase	54 (1975) 183
AcylCoA synthetase	54 (1975) 183
Adenine nucleotide	
derivatives	57 (1975) 272
translocase	
effect of fatty acids	53 (1975) 347
translocation in mitochondria of flight-muscle	54 (1975) 245
Adenosine	
effect on platelet aggregation and release reaction	54 (1975) 61
hexaphosphate	53 (1975) 113
pentaphosphate (pppApp)	53 (1975) 113
tetraphosphate (ppApp)	53 (1975) 113
triphosphatase (ATPase)	
action linked with proton movement in membranes	60 (1975) 1
activity of coupling factor	53 (1975) 221
effect of aurovertin	58 (1975) 285
concanavalin A and peptidoglycan of <i>M. tuberculosis</i>	52 (1975) 57
DCCD, oligomycin and venturicidin A	53 (1975) 180
myosin and actin	60 (1975) 81
oxidative phosphorylation uncouplers	54 (1975) 253
thiol-reagents	54 (1975) 230
inhibition by dicyclohexyl carbodiimide	59 (1975) 268
troponin component TN1	56 (1975) 248
kinetic mechanism	58 (1975) 197
of adrenal medulla	57 (1975) 198
of chloroplast envelopes	51 (1975) 335
of sarcoplasmic reticulum	58 (1975) 344
see also Mitochondrial ATPase	
Adenosine diphosphate ribose (ADPR)	57 (1975) 209
S-Adenosyl-L-methionine, methylation of proteins	58 (1975) 39
S-Adenosylmethionine: protein carboxyl methyltransferase see Protein methylase II	
Adenovirus-s DNA	57 (1975) 153
Adenylate cyclase	
effect of dihydroergotoxin on catecholamine, stimulation	55 (1975) 275
effect of dopamine, GTP, prostaglandins E and morphine	51 (1975) 242
inhibition of cholera toxin-induced activation	55 (1975) 138
of rat cerebellum	55 (1975) 225
Adenylosuccinate synthetase, effect of nitrate and GDP	54 (1975) 266
Adenylyl-3',5'-adenosine (ApA), n.m.r. study	51 (1975) 73
Adenylyl-3',5'-adenylyl-3',5'-adenosine (ApApA), p.m.r. study	53 (1975) 213
Adhesion of cells, effect albumin	60 (1975) 290
ADP	
binding to mitochondrial membranes	52 (1975) 111
effect on	
calcium transport	52 (1975) 48
reduction of Fe protein of nitrogenase	60 (1975) 89
induced aggregation of platelets, isolation of plasma co-factor	51 (1975) 171
interaction with glutamate dehydrogenase	58 (1975) 202
transport in mitochondria	56 (1975) 129; 56 (1975) 133
use in affinity chromatography of myosin	54 (1975) 291
see also 1,N ⁶ -Etheno-ADP (ε ADP)	
Adrenal medulla	
actomyosin-like protein	57 (1975) 198
catecholamine releasing factor	56 (1975) 73
presence of actin	56 (1975) 327
Adrenal medulla cells	
effect of 3',5'-cyclic AMP on catecholamine synthesis	51 (1975) 253

Adrenodoxin reductase <i>see</i> NADPH-adrenodoxin reductase	
Adriamycin	57 (1975) 223
ADRY-effect	52 (1975) 30
Affinity chromatography	
of actin	59 (1975) 117
of agglutinin of <i>Solanum tuberosum</i>	53 (1975) 324
of α -amylase	52 (1975) 66
binding of gibberellin to adsorbent	60 (1975) 39
of chromatin	59 (1975) 221
of creatine kinase	53 (1975) 99
of double-stranded DNA	58 (1975) 90
of α -fetoprotein	53 (1975) 305
of limulin	57 (1975) 245
of lipoprotein lipases and triglyceride lipase	53 (1975) 1
of lysozyme	57 (1975) 219
of maltodextrin phosphorylase	55 (1975) 178
of mannosidase	53 (1975) 110
of myosin	54 (1975) 291
of phenylalanyl-tRNA synthetase	53 (1975) 23
of phosphofructokinase	55 (1975) 282
of phospholipase C	52 (1975) 175
of prothrombin	51 (1975) 191
of pyruvate carboxylase	57 (1975) 34
of ribonucleoprotein particles	24 (1975) 39
of translating ribosomes	57 (1975) 262
of tridacnin	55 (1975) 25
of tryptophanase and tyrosine phenol-lyase	56 (1975) 307
Agarose chromatography, of biological membranes	57 (1975) 158
Agglutinin	
of <i>Solanum tuberosum</i>	53 (1975) 324
subunit structure	57 (1975) 100
<i>see also</i> Hemagglutinin, Lectin	
Alanine	
effect on conformation of pyruvate kinase	52 (1975) 312
interaction with model membranes	59 (1975) 131
substrate in gluconeogenesis	53 (1975) 29
Alanyl-oligonucleotide	
effect on elongation factor Tu-GTP complex	51 (1975) 321
Albumin	
biosynthesis	54 (1975) 119
effect on intercellular adhesion	60 (1975) 290
interaction with dichlorofluoran	57 (1975) 37
of human serum	58 (1975) 134
role in metal ion transport	59 (1975) 140
Alcohol dehydrogenase	
effect of neuroleptics	51 (1975) 297
effect of thallium	59 (1975) 88
modification by NAD-analogues	54 (1975) 297
Aldehyde substrate analogs,	
effect on α -chymotrypsin	56 (1975) 81
Aldolase	54 (1975) 70; 54 (1975) 97
<i>see also</i> Azoaldolase	
Aldosterone, radioimmunoassay	54 (1975) 84
Alfalfa mosaic virus (AMV) RNA, 5'-end group	59 (1975) 24
S-Alkyl-L-cysteine lyase	54 (1975) 193
N-Alkyl hydroxylamines, oxidation by trimethylamine mono-oxygenase	55 (1975) 286

All-L-gramicidin S	58 (1975) 141
Amantin, radioimmunoassay	56 (1975) 312
Amicetin analogues, effect on peptidyl transferase	53 (1975) 184
Amino acid	
aminotransferase	55 (1975) 265
enzyme electrodes	59 (1975) 258
sequence analysis on solid phase	
aminolysis of carbodithioic esters	51 (1975) 68
binding of peptides with use <i>p</i> -isothiocyanato-benzoyl-DL-homoserine lactone	60 (1975) 313
direct conversion of peptides into PTH-amino acids	55 (1975) 61
transport	
effect of glucagon and dibutyl cyclic AMP	53 (1975) 8
respiratory chain linked ferricyanide reduction	60 (1975) 11
Aminoacyl-tRNA synthetase,	
aminacylation reaction site	56 (1975) 212
γ -Aminobutyric acid degradative enzymes,	
effect of <i>n</i> -dipropyl acetate	52 (1975) 251
γ -Aminobutyric acid transaminase	
effect of <i>n</i> -dipropyl acetate	52 (1975) 251
α -Aminoisobutyric acid transport	
effect of glucagon and dibutyl cyclic AMP	53 (1975) 8
δ -Aminolevulinic acid synthetase	51 (1975) 206
2-Aminomethyl-3,3'-carboxymethyl-4,4'(β -carboxyethyl) dipyrromethane,	
biosynthesis of uroporphyrinogen IV	52 (1975) 317
L-2-Amino-3-methylene cyclo propyl-propionic acid <i>see</i> Hypoglycin	
Ammonia conversion to urea, utilization of NADPH	54 (1975) 274
AMP	
deaminase	58 (1975) 19
isoenzymes	58 (1975) 245
dephosphorylation	57 (1975) 195
Amylase	52 (1975) 66; 56 (1975) 189
Amylo 1,6-glucosidase	52 (1975) 22; 58 (1975) 181
Angiotensin II, hydrogen-deuterium exchange	58 (1975) 273
Angiotensin analogues, circular dichroism study	56 (1975) 366
Angiotensin receptors	55 (1975) 168
Aniline hydroxylase, effect of cyanide	52 (1975) 77
1-Anilino-8-naphthalene sulfonate (ANS),	
mitochondrial phosphorylation	59 (1975) 48
structural changes in membranes	60 (1975) 419
Anion binding sites in proteins	59 (1975) 158
Anions, effect on mitochondrial ATPase	56 (1975) 55
Anoxy, effect on fatty acid levels in mitochondria	51 (1975) 7
Antibiotically-active tripeptides	55 (1975) 153
Antibodies, iodination	59 (1975) 32
Antibody subunit interaction	
CPL study	52 (1975) 231
Antidepressants	
interaction with lipid model membranes	52 (1975) 69
Antigenic determinants of tumor cell plasma membranes	51 (1975) 351
Anti-immunoglobulin G antibody, use in immunoassay	56 (1975) 370
Antimycin A-sensitive mutant of <i>S. cerevisiae</i>	59 (1975) 273
Antimycin	
effect on electron transport	58 (1975) 211
-insensitive respiration	54 (1975) 311
Antitumour	
agents	57 (1975) 223
glycopeptides	57 (1975) 259

Apamin, neurotoxic effect on neural cultures	53 (1975) 143
Apolipoproteins	
deficiency in hyperlipoproteinemia	56 (1975) 352
Apolipoproteins	
in hypercholesterolemia	51 (1975) 116
A-protein–RNA complex	
of bacteriophage M12	55 (1975) 50
Apyrimidinic sites in γ -irradiated DNA	51 (1975) 188
Arginine deiminase of <i>Clostridium sporogenes</i> , effect of histidine	51 (1975) 246
L-Arginine- <i>N</i> - α -methyl-L-amino acid-L-phenylalanine antibiotic activity	55 (1975) 153
Arginine operon of <i>Escherichia coli</i> , in vitro transcription	51 (1975) 143
Argininosuccinate synthase	58 (1975) 314
Ascorbic acid, presence in chromaffin granules	59 (1975) 52
Asparaginase	57 (1975) 223; 59 (1975) 173
L-Asparaginase entrapped in liposomes	60 (1975) 17
Asparaginase, <i>S</i> -methylated, conformation and antigenicity	60 (1975) 259
Aspartate amino transferase	54 (1975) 307
interaction with α -methylaspartic acid	51 (1975) 5
Aspartate carbamoyltransferase	53 (1975) 148
L-Aspartate/L-glutamate exchange in mitochondria, effect of glisoxepide	51 (1975) 52
<i>Aspergillus nidulans</i> , cysteine auxotroph mutant	58 (1975) 164
Association constants, of macromolecule–ligand complexes	55 (1975) 75
ATP/ADP ratio, relation to phosphorylation of pyruvate dehydrogenase	52 (1975) 226
ATP analogues, effect on affinity labelling of phenylalanyl-tRNA synthetase	52 (1975) 135
ATP- γ - <i>p</i> -azidoanilidate, modification of phenylalanyl-tRNA synthetase	60 (1975) 172
ATP	
binding to mitochondrial membranes	52 (1975) 111
complex with manganese and acetylcholine	59 (1975) 57
effect on	
calcium transport	52 (1975) 48
conformation of pyruvate kinase	52 (1975) 312
malic enzyme	51 (1975) 274
protein synthesis in reticulocyte lysate	58 (1975) 99
protein synthesis initiation	58 (1975) 112
translation of globin mRNA	52 (1975) 258
water transport	53 (1975) 347
mechanism of phenylalanyl-tRNA synthetase action	59 (1975) 254
– $^{32}\text{P}_i$ exchange	57 (1975) 14
synthesis	
driven by proton transport	53 (1975) 123
effect of pH gradient	57 (1975) 290
transport in mitochondria	56 (1975) 129; 56 (1975) 133
see also 1, <i>N</i> ⁶ -Etheno-ATP (ϵ ATP)	
Attractyloside, binding to mitochondrial membranes	56 (1975) 194
Aurin tricarboxylic acid	
effect on protein synthesis	54 (1975) 126
inhibition of phenylalanyl-tRNA synthetase	56 (1975) 303
interaction with ribosomal proteins	51 (1975) 184
Aurovertin,	
effect on energy transfer in chromatophores	58 (1975) 285
effect on mitochondrial ATPase	56 (1975) 55
Avidin-Sepharose,	
affinity chromatography of pyruvate carboxylase	57 (1975) 34
5-Azacytidine	57 (1975) 223

Azide, effect on methaemocyanin formation	60 (1975) 400
γ -(p)-Azidoanilide-ATP <i>see</i> ATP- γ -p-azidoanilide	
Azoaldolase	
diazothioether chromophore formation	56 (1975) 279
fluorescence study	58 (1975) 175
Bacitracin synthetase, presence of pantothenic acid	60 (1975) 305
Bacteriochlorophyll	52 (1975) 33; 60 (1975) 275
Bacteriophage	
$\phi \times 174$ DNA	55 (1975) 212
λ DNA	52 (1975) 121
λ , use as vector for DNA fragments	56 (1975) 7
M12, isolation RNA-A protein complex	55 (1975) 50
MS2 RNA	56 (1975) 283
PM2 basic protein, resistance to proteolytic enzymes	58 (1975) 265
PM2 biogenesis, effect of rifampicin	51 (1975) 249
PR4	58 (1975) 43
T4 core RNA polymerase, effect of KCl concentration on transcription	51 (1975) 237
T4 gene 32 protein	57 (1975) 126
Bacteriopheophytin	52 (1975) 33; 60 (1975) 275
Bacteriorhodopsin	55 (1975) 1
Basic proteins <i>see</i> Myelin basic proteins etc.	
Bathocuproinesulfonate	57 (1975) 237
Bathophenanthroline	54 (1975) 253
Bathophenan throlinesulfonate	57 (1975) 237
p-Benzophenone-propionyl-phenylalanyl tRNA, binding to 23S rRNA	56 (1975) 170
Benzo(a)pyrene	57 (1975) 250
Benzoic acid	
conjugation in elephant and hyena	60 (1975) 391
metabolism in Indian fruit bats	59 (1975) 234
N- α -Benzoyl arginine ethyl ester hydrolysis by plasmin	54 (1975) 334
Benzoylglutamic acid	59 (1975) 234
S-Benzoyl-glutathione, interaction with γ -glutamyltranspeptidase	54 (1975) 319
Benzoylthionocholines, use in peptide sequence analysis	57 (1975) 19
Benzympenicillin	57 (1975) 9
Bile salts, effect on lipase	58 (1975) 155
Biotin	57 (1975) 34
Biotin-containing affinity labels	60 (1975) 309
α, α' -Bis (hexafluoroacetyl)acetone	
effect on water-splitting enzyme system Y	52 (1975) 30
Bisulfite, modification of tryptophanyl-tRNA	51 (1975) 325
Bisulphonyxyalkane myleran	57 (1975) 223
Bleomycin	57 (1975) 223
Blepharmon	53 (1975) 131
Blood-group B and P ₁ destroying galactosidases of <i>Trichomonas foetus</i>	60 (1975) 281
Bovine serum albumin <i>see</i> Albumin	
Branching enzyme <i>see</i> α -Glucan-branching-glycosyltransferase	
Brome mosaic virus (BMV),	
effect of trypsin, chymotrypsin and ribonuclease	56 (1975) 144
[3-(3-Bromoacetylpyridinio)-propyl]-adenosine, pyrophosphate	54 (1975) 297
[3-(4-Bromoacetylpyridinio)-propyl]-adenosine, pyrophosphate	54 (1975) 297
Brush-border membranes	
absence of monoglyceride pathway enzymes	54 (1975) 183
presence of γ -glutamyl transpeptidase	58 (1975) 230
Butanedione	
effect on citrate synthase	51 (1975) 294
Butanol	
effect on membrane permeability	56 (1975) 198

Caffeine, effect on 3',5'-cyclic AMP phosphodiesterase	52 (1975) 295
Calcium	
binding of parvalbumin	56 (1975) 156
binding to brain tubulin	58 (1975) 222
-binding site of β -trypsin	56 (1975) 139
-binding sites of troponin and parvalbumin	58 (1975) 262
effect of ionophore A23187	59 (1975) 36
effect of myosin and actin on smooth muscle ATPase	60 (1975) 81
effect on	
conversion of proacrosin to acrosin	54 (1975) 269
exocytosis in leukocytes	24 (1975) 44
manganese binding to concanavalin A	52 (1975) 185
NADH/NAD ratio	53 (1975) 297
NADH oxidation	59 (1975) 109
phosphorylase kinase	57 (1975) 68
spectral properties of troponin C	55 (1975) 183
phosphate deposits in mitochondria	60 (1975) 410
stability of insulin secretory granules	54 (1975) 343
transport	
effect of cholate	57 (1975) 14
effect of nucleotides	52 (1975) 48
in isolated hepatocytes	59 (1975) 39
in isolated myometrial mitochondria	56 (1975) 120
in mitochondria of Ehrlich ascites tumour cells	56 (1975) 185
in sarcoplasmic reticulum membranes	54 (1975) 8; 58 (1975) 344
Cannabinoid metabolites, immunoassay	55 (1975) 257
Carbamoylcholine	59 (1975) 74
Carbodithioic esters of amino acids,	
use in solid phase sequential analysis	51 (1975) 68
Carbonyl cyanide <i>m</i> -chlorophenylhydrazone (CCCP)	51 (1975) 52; 54 (1975) 230; 54 (1975) 253; 59 (1975) 162
Carbopol 934	
inhibition of DNA polymerase	52 (1975) 141
Carboxy-atractylate binding protein from mitochondria	56 (1975) 129; 56 (1975) 133
Carboxy atractyloside	
binding to mitochondrial membranes	56 (1975) 194
DD-Carboxypeptidase-transpeptidase, donor-acceptor substrate	52 (1975) 221
Carboxypeptidase Y, role of cysteine residue	56 (1975) 43
Carboxypeptidases, metal-tyrosyl interaction	51 (1975) 262
Cardiolipin	53 (1975) 342
Carnitine	
role in fatty acid uptake in mitochondria	54 (1975) 21
role in muscle contraction	52 (1975) 265
Carnitine acetyl-transferase	
role in muscle contraction	52 (1975) 265
κ -Casein, immunological cross reaction with fibrinogen	58 (1975) 300
Catalase	
coordination of iron by a water molecule	55 (1975) 254
cytochemical localization in <i>Candida boidinii</i>	52 (1975) 246
T biosynthesis	59 (1975) 300
Catecholamine	
effect of dihydroergotoxin on adenylate cyclase stimulation	55 (1975) 275
releasing factor	56 (1975) 73
synthesis, effect of 3',5'-cyclic AMP and dibutyryl 3',5'-cyclic AMP	51 (1975) 253
Caudate nucleus	
effect of dopamine, GTP, prostaglandins E and morphine on adenylate cyclase	51 (1975) 242
Cell division, effect of purine derivatives	60 (1975) 205
Cell electrophoresis light scattering apparatus	60 (1975) 62

Cell-free system	
effect of cyclic AMP	58 (1975) 81
synthesis of procollagen	57 (1975) 47
Cell membranes	
binding of spin labels	60 (1975) 185
of <i>Rhodotorula gracilis</i> , linkage of proton transport and sugar transport	52 (1975) 95
Cell respiration	
relation with cytochrome content	55 (1975) 42
Centrifugation <i>see</i> Equilibrium centrifugation, Isopycnic centrifugation	
Cerebellum, protein differences in mouse mutants	52 (1975) 216
Ceruleotoxin of <i>Bungarus caeruleus</i>	59 (1975) 212
Ceruloplasmin	
oxidation of cysteine	55 (1975) 261
reaction with nitric oxide	54 (1975) 163
Cesium transport, in synaptic membranes	58 (1975) 340
Chalcone flavanone isomerase	51 (1975) 105
Chitinase activity in the molt cycle of <i>Manduca sexta</i>	51 (1975) 161
Chlorella cell triggered-luminescence	57 (1975) 276
Chlorinated hydrocarbons	
interaction with cytochrome P-450	51 (1975) 11
Chlorite, hydroxylation of steroids	56 (1975) 161
2',3'-O-[4-(N-2-Chloroethyl-N-methyl-amino)-benzylidene]uridine-5'-methylphosphate	60 (1975) 168
Chloroethylnitrosourea	57 (1975) 223
p-Chloromercuribenzoic acid, effect on ribonuclease	60 (1975) 349
2-Chloromercuri-4-nitrophenol	54 (1975) 230
Chloromethoxycarbonylphenylhydrazine <i>see</i> Carbonylcyanide m-chlorophenylhydrazine	
3-Chloro-4-(2'-methylene butyryl) phenoxyacetic acid	54 (1975) 30
Chlorophyll	
a and b, fluorescent lifetime studies	54 (1975) 358
a fluorescence quenching by reduced PMS	58 (1975) 277
a forms in <i>Chlamydomonas reinhardtii</i>	54 (1975) 13
light-induced formation in <i>Chlamydomonas reinhardtii</i>	55 (1975) 117
2-Chloro-3-phytyl-1,4-naphthoquinone	59 (1975) 13
Chloroplast coupling factor (CF ₁)	
effect of troponin component	56 (1975) 248
Chloroplast	
DNA	52 (1975) 171; 60 (1975) 94
envelope ATPase	51 (1975) 335
membrane proteins, isoelectric focusing	60 (1975) 47
membranes, proton-driven phosphorylation	53 (1975) 123
membranes, chlorophyll a forms	54 (1975) 13
Chloroplasts	
action of silicomolybdic acid	56 (1975) 240
deactivation of superoxide dismutase	60 (1975) 98
DNA replication and division	56 (1975) 222
electron donor to photosystem II	51 (1975) 287
electron transport by phenol red	53 (1975) 287
effect of DBMIB, DCMU and antimycin on electron transport	58 (1975) 211
effect of dichlorophenol-indophenol on photosystem II	55 (1975) 109
effect of triphenyltin on proton transport	58 (1975) 57
light-induced biosynthesis	55 (1975) 117
manganese protein complex	51 (1975) 21
neutral red as indicator of inner phase pH-changes	59 (1975) 310
occurrence of thymidine kinase	58 (1975) 370
oxygen evolution at sub-zero temperatures	57 (1975) 117
pH gradient-induced electron transport	54 (1975) 151
restoration of cyclic phosphorylation by α -tocopherol	57 (1975) 104

synthesis of guanosine polyphosphates	56 (1975) 179
triggered-luminescence	57 (1975) 276
Chloropromazine	
effect on alcohol dehydrogenase	51 (1975) 297
effect on dibutyl cyclic AMP action on ornithine decarboxylase	55 (1975) 22
Chloroprophixene	
effect on alcohol dehydrogenase	51 (1975) 297
5-Chloro-3-tert. butyl-2'-chloro-4'-nitro salicylanilide, effect on water-splitting enzyme system Y	52 (1975) 30
Cholate, effect on liposomes	57 (1975) 121
Cholera toxin	55 (1975) 138
Cholesterol	56 (1975) 198
effect on lymphocyte transformation	52 (1975) 208
ester uptake by hepatocytes	51 (1975) 219
7 α -hydroxylase, solubilization without detergents	53 (1975) 80
intermediates in conversion to pregnenolone	54 (1975) 172
transport by serum lipoproteins	58 (1975) 47
see also Dihydroxycholesterol, Epoxidecholesterol	
Chondroitin sulphate, binding to collagen	56 (1975) 166
Chorionic gonadotropin (hCG)	
effect on lymphocyte transformation	53 (1975) 309
see also Gonadotropin receptor	
Chromaffin granule	
membranes	57 (1975) 213
occurrence of dopamine- β -hydroxylase	52 (1975) 132
presence of ascorbate	59 (1975) 52
Chromatin	
binding and arrangement of non-histone proteins	60 (1975) 197
conformation after removal of non-histone proteins	59 (1975) 250
fractionation with immobilized RNA-polymerase	59 (1975) 221
histone associations	58 (1975) 353
histones F2a1 and F3 interaction with DNA	55 (1975) 77
subunit structure	57 (1975) 79
Chromatography see Affinity chromatography; Agarose chromatography; Gel permeation chromatography;	
High pressure liquid chromatography; Hydrophobic chromatography	
Chromatophores of <i>Rhodospirillum rubrum</i> , effect of aurovertin	58 (1975) 285
Chromosomal proteins see Histones; Non-histone chromosomal proteins	
Chymotrypsin	
binding of aldehyde substrate analogs	56 (1975) 81
effect of conformation of peptide substrate	59 (1975) 105
effect of denaturing agents on thermoinactivation	51 (1975) 152
effect on brome mosaic virus	56 (1975) 144
Cinnamoyl-CoA thioester reducing enzyme	54 (1975) 259
Circular dichroism (CD)	
interaction between protein A and immunoglobulin G Fe-fragment	52 (1975) 53
of angiotensin and analogues	56 (1975) 366
of chromatin	59 (1975) 250
of histone V	54 (1975) 159
of poly [d(G-C)]	54 (1975) 49
of rhodopsin	55 (1975) 229
of troponin C	55 (1975) 183
of troponin-tropomyosin interactions	52 (1975) 127
Circular polarization of luminescence (CPL)	
of antibody subunit interaction	52 (1975) 231
Circularly polarized emission (CPE)	
of calcium binding sites in proteins	58 (1975) 262
Citrate lyase	53 (1975) 61

FEBS LETTERS

Citrate lyase acyl carrier	51 (1975) 100
Citrate metabolism in <i>Klebsiella aerogenes</i>	53 (1975) 61
Citrate synthase	57 (1975) 134
effect of diethylpyrocarbonate, nitromalondialdehyde and butanedione	51 (1975) 294
Clonasterol, migration of C-25 hydrogen to C-24	55 (1975) 88
CMP, effect on peptidyl transferase	58 (1975) 94
Cobalt	
binding to albumin	59 (1975) 140
in superoxide dismutase	59 (1975) 29
CO-binding cytochrome <i>c</i>	58 (1975) 293
Coenzyme B12 <i>see</i> Vitamin B12	
Colchicin	51 (1975) 219; 57 (1975) 5
Colicins B, I and V effect on enterochelin transport	59 (1975) 277
Colipase, effect on lipase	58 (1975) 155
Collagen	51 (1975) 94; 57 (1975) 93
binding of chondroitin sulphate	56 (1975) 166
Collagenase	56 (1975) 292; 59 (1975) 167
Complement	
C1f	55 (1975) 156
C3 and C567, effect on glucose oxidation of polymorphonuclear leucocytes	51 (1975) 232
Complex III of electron transfer system	58 (1975) 33
Complex III of mitochondria, proton transport	54 (1975) 339
Concanavalin A	
-binding plasma membrane antigens	54 (1975) 139
effect on enzyme activities of plasma membranes	52 (1975) 57
interaction of metal ligands	52 (1975) 185
Conjugation of phenol, benzoic acid, phenylacetic acid, 1-naphtylacetic acid and sulphadime thoxin	60 (1975) 391
Contact site <i>see</i> Membrane contact site	
Copper	
-containing protein of spinach	55 (1975) 272
content of indoleamine 2,3-dioxygenase	57 (1975) 237
in superoxide dismutase	59 (1975) 29
-myoglobin complexes, an ESR study	53 (1975) 53; 53 (1975) 190
presence in hemocyanin	54 (1975) 283
reaction of nitric oxide with laccase	54 (1975) 163
thionein	54 (1975) 224
Cordycepin, effect on phosphoenol pyruvate carboxykinase activity	57 (1975) 64
Corticosteroid binding globulin <i>see</i> Transcortin	
Corticosterone metabolites	
site of sulpho-conjugation	58 (1975) 170
Cortisol, interaction with transcortin, ESR study	60 (1975) 364
Cortisone acetate, effect on induction of tyrosine aminotransferase	56 (1975) 62
Coupling factor protein	
interaction with adenine nucleotides	57 (1975) 272
subunit composition	53 (1975) 221
Creatine biosynthesis	55 (1975) 91
Creatine kinase	
effect on protein synthesis in reticulocyte lysate	58 (1975) 99
purification by affinity chromatography	53 (1975) 99
Creatine phosphate	
effect on translation of globin mRNA	52 (1975) 258
Creatine phosphokinase <i>see</i> Creatine kinase	
α -Crystallin	58 (1975) 310
CTP, effect on poly-U directed poly-A synthesis	56 (1975) 92
Cuprodioxin	54 (1975) 224
Cusacyanin	55 (1975) 272
Cyanate, carbamylation of hemoglobin-S	55 (1975) 99

- Cyanide
 effect on aniline hydroxylase 52 (1975) 77
 effect on cytochrome-*b*₆ oxidation 60 (1975) 51
 Cyanide generation after CCCP addition to grana or algae 59 (1975) 162
 α-Cyano-4-hydroxycinnamate, effect on gluconeogenesis 53 (1975) 29
 3',5'-Cyclic AMP
 accumulation in islets of Langerhaus induced by glucose 54 (1975) 80
 aggregation of cells 53 (1975) 139
 effect of
 cholinergic agents and sodium 59 (1975) 74
 opiates and adrenergic agonists 52 (1975) 327
 somatostatin on glucose-induced accumulation 55 (1975) 131
 effect on
 catecholamine synthesis 51 (1975) 253
 glutamate dehydrogenase 60 (1975) 129
 muscle cell fusion 53 (1975) 33
 protein kinase of corpus luteum 51 (1975) 25
 protein kinase and phosphatase 57 (1975) 60
 inhibition of cell-free protein synthesis 58 (1975) 81
 phosphodiesterase 52 (1975) 295; 56 (1975) 46; 56 (1975) 332
 role in luteinizing hormone release 58 (1975) 318
see also Dibutyl 3',5'-cyclic AMP
 3',5'-Cyclic GMP 55 (1975) 143
 effect of cholinergic agents and sodium 59 (1975) 74
 phosphodiesterase 56 (1975) 332
 Cyclic inositol phosphate 53 (1975) 302
 Cyclic phosphorylation,
 restoration by α-tocopherol 57 (1975) 104
 Cyclocytidine 57 (1975) 223
 Cycloheximide 51 (1975) 219; 54 (1975) 126; 57 (1975) 64
 Cyclophosphamide 57 (1975) 223
 Cysteamine oxygenase 56 (1975) 348
 Cysteine desulphydrase 52 (1975) 304
 Cysteine
 oxidation by ceruloplasmin 55 (1975) 261
 synthase 58 (1975) 164
 Cytidine, effect on peptidyl transferase 53 (1975) 184
 Cytochalasin B, effect on F-actin 54 (1975) 263
 Cytochrome
*b*₅ 58 (1975) 190
*b*₅-phospholipid interaction in membranes 57 (1975) 112
*b*₅₅₉, acid-base induced redox changes 56 (1975) 244

Enterotoxin of <i>Escherichia coli</i>	56 (1975) 30
Enzyme kinetics	
a generalized model	53 (1975) 269
of diaphorase	55 (1975) 113
of glutathione S-transferase action	56 (1975) 218
Enzyme system Y, effect of 5'-chloro-3-tert.butyl-2'-chloro-4'-nitrosalicylanilide and α,α' -bis (hexa-fluoroacetyl)acetone	52 (1975) 30
Enzymes <i>see</i> Immobilized enzymes	
Epoxide hydratase	53 (1975) 205; 59 (1975) 291; 59 (1975) 296
20,22-Epoxycholesterol	
intermediate of conversion of cholesterol into pregnenolone	54 (1975) 172
Equilibrium centrifugation, of tobacco mosaic virus (TMV) protein	56 (1975) 12
Erythrocyte membranes	57 (1975) 213
agarose chromatography	57 (1975) 158
glycerol permeability	54 (1975) 180
lectin-binding components	58 (1975) 330
lyssolecithin inhibition of phospholipase A ₂	58 (1975) 186
proteins comparison with reticulocyte membrane proteins	52 (1975) 255
Erythrocytes, functional properties of sickle blood cells	59 (1975) 15
Erythroid cell maturation, ribonuclease activity	51 (1975) 346
Erythromycin, binding to mitochondrial ribosomes	56 (1975) 77
Estradiol	
binding to α -fetoprotein	53 (1975) 305
effect on 3',5'-cyclic AMP phosphodiesterase	52 (1975) 295
effect on uteroglobin	58 (1975) 126
Estriol, high affinity specific antibody	60 (1975) 103
Ethacrynic acid	54 (1975) 30
Ethanolamine ammonia-lyase	53 (1975) 193
1,N ⁶ -Etheno-ADP (ϵ -ADP)	52 (1975) 8; 57 (1975) 272
1,N ⁶ -Etheno-AMP (ϵ -AMP)	57 (1975) 272
1,N ⁶ -Etheno-ATP (ϵ -ATP)	52 (1975) 8; 57 (1975) 272
Ethidium bromide	
effect on oxidative phosphorylation	54 (1975) 347
uptake in yeast mutants	57 (1975) 241
3-Ethoxy-1,1-dihydroxy-2-butanone <i>see</i> Kethoxal	
β -Ethoxy- α -ketobutyraldehyde <i>see</i> Kethoxal	
Ethylene diamine tetraacetic acid (EDTA)	
effect on ribosomal proteins	51 (1975) 215
treatment of chloroplasts, effect on superoxide dismutase	60 (1975) 98
1-Ethyl-3(3-dimethylaminopropyl)carbodiimide,	
inhibition of toxin-induced activation of adenylate cyclase	55 (1975) 138
N-Ethylmaleimide	54 (1975) 30
Exocytosis in polymorphonuclear leukocytes	24 (1975) 44
Exotoxin of <i>Bacillus thuringiensis</i> , effect on protein synthesis	54 (1975) 330
Fasting, effect on lactate metabolism	60 (1975) 431
Fatty acid	
binding protein Z	60 (1975) 256

β -oxidation, inhibition by methylene cyclopropylacetyl-CoA	55 (1975) 38
synthesis in hepatocytes	58 (1975) 334
synthesis, role of acetoacetyl-CoA synthetase	60 (1975) 7
transport in mitochondria	54 (1975) 21
Fatty acids	
effect of temperature on composition	55 (1975) 237
effect on	
hexose transport in <i>Chlorella vulgaris</i>	60 (1975) 346
water transport and adenine nucleotide translocase	53 (1975) 347
light-induced synthesis in <i>Chlamydomonas reinhardtii</i>	55 (1975) 117
in mitochondria, effect of anoxic injury	51 (1975) 7

Filipin U-5956, effect on membrane permeability	56 (1975) 198
Flavin system, oxygen affinity of flavin radical species	51 (1975) 47
Flavonoid synthesis, induction of enzymes	51 (1975) 105
Flight-muscle mitochondria	54 (1975) 245
Flufenamic acid	
effect on 3',5'-cyclic AMP phosphodiesterase	52 (1975) 295
uncoupling of oxidative phosphorylation	54 (1975) 53
Fluorescence	
of F-actin	60 (1975) 164
of G-actin- ϵ -ATP and F-actin- ϵ -ADP	52 (1975) 8
of ATPase action	58 (1975) 197
of ethidium bromide in yeast mutants	57 (1975) 241
of lipoxygenase-1	52 (1975) 73
of troponin-tropomyosin interactions	52 (1975) 127
of tryptophanyl oligonucleotide-polyU complex	51 (1975) 211
Fluorescence spectrometry	
of benzo(a)pyrene-DNA products	57 (1975) 250
of oxidation in azoaldolase	58 (1975) 175
of ribosomal subunits	57 (1975) 149
Fluorescent lifetime studies in photosynthesis	54 (1975) 358
Fluoride, effect on methaemocyanin formation	60 (1975) 400
Folate metabolism, effect of glycine	54 (1975) 286
Folic acid binding protein, isolation from β -lactoglobulin	55 (1975) 128
Follitropin (FSH), carbohydrates of α -subunit	60 (1975) 263
Formate dehydrogenase, presence of tungsten	54 (1975) 279

<i>N</i> -Formylkynurenine	57 (1975) 237
<i>N</i> -Formyl methionyl tRNA, hydrolysis stimulating factor	53 (1975) 159
10-Formyltetrahydrofolate synthetase	54 (1975) 286
Fremy's salt	59 (1975) 173
Friend leukemia virus DNA polymerase	53 (1975) 10
Fructose 1,6-diphosphate, binding to pyruvate kinase	58 (1975) 366
Fructose uptake and phosphorylation by <i>Escherichia coli</i>	51 (1975) 1
α -L-Fucosidase	54 (1975) 89
Fumarase-inhibitor binding, effect of temperature	53 (1975) 225
Fusidic acid	
inhibition of 40S ribosomal subunit-dependent GTPase activity	51 (1975) 341
effect on protein synthesis	54 (1975) 126
effect on puromycin binding to <i>N</i> -acetyl-phenylalanyl-tRNA on ribosomes	51 (1975) 177
Fusion of muscle cells, effect of cyclic AMP	53 (1975) 33
Galactosamine, quantitation in glycoproteins	60 (1975) 76
Galactose transport, role of proton transport	59 (1975) 153
β -Galactosidase	53 (1975) 243
Galactosidase, use in immunoassay of immunoglobulin G	56 (1975) 370
α -D-Galactosidases of <i>Trichomonas foetus</i>	60 (1975) 281
Galactosyltransferase	54 (1975) 65
Gas chromatography-mass spectrometry (GC-MS) of neuraminic acid	59 (1975) 190
Gastrin, binding to ligandin	52 (1975) 300
GDP, effect on adenylosuccinate synthetase	54 (1975) 266
Gel permeation chromatography of glycoproteins	52 (1975) 188
Germination, RNA and DNA synthesis	51 (1975) 277
Gibberellin binding to adsorbent,	
use in affinity chromatography of enzymes of gibberellin metabolism	60 (1975) 39
Glial cell nuclei, histone acetylation	52 (1975) 40
Glisoxepide, inhibition of L-aspartate/L-glutamate exchange	51 (1975) 52
Globin mRNA,	
discriminating factor of α - and β -coding species	58 (1975) 325
methylated constituents	57 (1975) 73
occurrence of glutamine cognate codons	60 (1975) 380
translation, effect of creatine phosphate, ATP and GTP	52 (1975) 258
α_2 -Globulin, immunosuppressive properties	58 (1975) 29
Glucagon	
effect on α -aminoisobutyric acid transport	53 (1975) 8
effect on glycogen phosphorylase	51 (1975) 29
effect on lipid synthesis	58 (1975) 334
release, effect of somatostatin	58 (1975) 302
α -Glucan-branching-glycosyltransferase	52 (1975) 22; 54 (1975) 201
action on amylose	54 (1975) 201
β -Glucan hydrolase use of pneumococcal polysaccharide as substrate	52 (1975) 202
Glucocerebroside β -glucosidase, specificity of glycoprotein effector	53 (1975) 243
Glucocorticosteroids	
effect on RNA polymerase B	60 (1975) 396
see also Dexamethasone	
Gluconate transport, role of proton transport	59 (1975) 153
Gluconeogenesis	
effect of glisoxepide	51 (1975) 52
from serine	55 (1975) 202
from serine and alanine	53 (1975) 29
functional heterogeneity in liver	57 (1975) 83

-binding protein, occurrence in microsomal membranes	56 (1975) 256
binding to microsomal membranes	52 (1975) 81
binding to homogenates of skeletal muscle	60 (1975) 126
Ultraviolet absorption study	
of pyruvate kinase	58 (1975) 366
of troponin C	55 (1975) 184
Δ^2 -Unsaturated fatty acids, hydrogenation in a cell-free system	56 (1975) 356
Urea	
formation from ammonia, utilization of NADPH	54 (1975) 274
protective effect on thermoinactivation of proteins	51 (1975) 152
Uridine kinase, effect of Pb ²⁺ ions	51 (1975) 133
Uridine pentaphosphate	53 (1975) 113
Uroporphyrinogen IV, biosynthesis from a dipyrromethane derivative	52 (1975) 317
Uteroglobin	58 (1975) 126
mRNA, translation in oocytes	59 (1975) 305
Valinomycin	57 (1975) 290
Valyl-tRNA, interaction with valyl-tRNA ligase	53 (1975) 154
Vasoactive intestinal peptide of chicken	60 (1975) 322
Vasopressin	53 (1975) 331
effect on dibutyryl cyclic AMP action on ornithine decarboxylase	55 (1975) 22
effect on glycogen phosphorylase	51 (1975) 29
Venturicidin A	53 (1975) 180
Very low density lipoproteins (VLDL), deficiency of apolipoprotein	56 (1975) 352
Vinblastine	57 (1975) 223
Vincristine	57 (1975) 223
Viral DNA polymerase	60 (1975) 233
Visible light absorption spectroscopy of ethanolamine ammonia-lyase	53 (1975) 193
Vitamin	
B12, study of ethanolamine ammonia-lyase	53 (1975) 193
D see 1,25-Dihydroxycholecalciferol	
K, enzymatic reduction	59 (1975) 13
Wallerian degeneration of optic nerves, protein differences	51 (1975) 313
Water-splitting enzyme system Y see Enzyme system Y	
Water transport, effect of fatty acids	53 (1975) 347

FEBS LETTERS

Xanthine oxidase	51 (1975) 180
activity in hepatomas	59 (1975) 245
stereospecific hydrogen removal from NADH	51 (1975) 284
<i>Xenopus</i> oocyte membrane, effect of progesterone on leucine uptake	51 (1975) 156
X-ray	
crystallography	
of glutathione reductase	54 (1975) 86
of thaumatin I	56 (1975) 316
photoelectron spectroscopy of cuprodoxin	54 (1975) 224
scattering, of RNA and protein distribution in ribosomes	59 (1975) 133
study of bacteriophage MS2 RNA	56 (1975) 283
Zinc	
binding to albumin	59 (1975) 140
effect on conversion of proacrosin to acrosin	54 (1975) 269
—tyrosyl interaction in carboxypeptidases	51 (1975) 262
Z protein <i>see</i> Fatty acid binding protein Z
