

CORRIGENDUM

Schlesinger, D. H., M. Ernst, A. Nicholas, W. B. Watkins and R. Walter, Complete amino acid sequence of ovine neurophysin—III (1975) FEBS Letters 57, 55–59

The authors would like to make the following statement regarding their article:

The sequence of the C-terminal half of ONP-III, initially derived from mixtures of peptide fragments, was, for the most part, confirmed by conventional sequence analysis. Peptide C-5 (residues 50–94) obtained as a single peak upon gel filtration on Sephadex G-50 after chymotryptic digestion of ONP-III, confirmed residues 50 through 75 by automated sequential analysis. After maleation and tryptic digestion of peptide C-5, manual sequential analysis of the resulting two peptides with unblocked N-termini confirmed residues 67-83 (T1-MC5) and 87-92 (T2-MC5) except that residues 76 and 78 are replaced by Asp and Ser respectively. A definitive report will be published elsewhere.
