## **CORRIGENDUM**

Sabbioni, E., The metalloenzyme nature of calf thymus deoxynucleotidyl transferase (1976) FEBS Letters 71, 233-235.

The author would like to make the following correction to his article:

p. 235, Table 1 was omitted. It should read:

Table 1

The dependence of the enzymatic activity of the native and reconstituted terminal deoxynucleotidyl transferase from calf thymus and Zn content as determined by neutron activation analysis and radiotracing experiments
