

## Contents to volume 308

## Discussion Letter

- Depicting topology and handedness in jellyroll structures (FEBS 11352) *H.J. Stirk, D.N. Woolfson, E.G. Hutchinson, J.M. Thornton*

## Research Letters

- Bleomycin-reactive iron in patients with acute non-lymphocytic leukemia (FEBS 11381) *V.R. Gordeuk, G.M. Brittenham*
- Molecular cloning and characterization of a novel calcium channel from rabbit brain (FEBS 11384) *T. Niidome, M.-S. Kim, T. Friedrich, Y. Mori*
- The apical sorting signal on human aminopeptidase N is not located in the stalk but in the catalytic head group (FEBS 11383) *L.K. Vogel, O. Norén, H. Sjöström*
- Biosynthesis of bacillomycin D by *Bacillus subtilis*: Evidence for amino acid-activating enzymes by the use of affinity chromatography (FEBS 11385) *F. Besson, G. Michel*
- Induction of  $\text{Ca}^{2+}$ /calmodulin-dependent NO synthase in various organs of rats by *Propionibacterium acnes* and lipopolysaccharide treatment (FEBS 11390) *S. Oguchi, S. Iida, H. Adachi, H. Ohshima, H. Esumi*
- Coenzyme binding of a folding intermediate of aspartate aminotransferase detected by HPLC fluorescence measurements (FEBS 11391) *M. Herold, B. Leistler*
- A new type of mitogenic factor produced by *Streptococcus pyogenes* (FEBS 11392) *T. Yutsudo, H. Murai, J. Gonzalez, T. Takao, Y. Shimonishi, Y. Takeda, H. Igarashi, Y. Hinuma*
- A novel mutant (transferrin II-50) related to amyloid polynuropathy: Single-strand conformation polymorphism as a new genetic marker (FEBS 11388) *Y. Saeki, S. Ueno, N. Takahashi, F. Soga, T. Yanagihara*
- Enhancement of epidermal growth factor (EGF) and insulin-stimulated tyrosine phosphorylation of endogenous substrates by sodium selenate (FEBS 11393) *T.S. Pillay, M.W. Makgoba*
- In vitro interaction of fenretinide with plasma retinol-binding protein and its functional consequences (FEBS 11412) *R. Berni, F. Formelli*
- The metastatic potential of rat prostate tumor variant R3327-MatLyLu is correlated with an increased activity of *N*-acetylglucosaminyl transferase III and V (FEBS 11394) *E.W. Easton, I. Blokland, A.A. Geldof, B.R. Rao, D.H. van den Eijnden*
- $\alpha 2$ -Macroglobulin and other proteinase inhibitors do not interfere with the secretion of amyloid precursor protein in mouse neuroblastoma cells (FEBS 11404) *B. De Strooper, F. Van Leuven, H.V. Den Berghe*
- Ubiquitin of *Entamoeba histolytica* deviates in six amino acid residues from the consensus of all other known ubiquitins (FEBS 11414) *C. Wöstmann, E. Tammich, T. Bakker-Grunwald*
- Cooperative proton and calcium binding by sarcoplasmic reticulum ATPase (FEBS 11363) *R.B. Martin*
- Tyrosine-89 is important for enzymatic activity of *S. cerevisiae* inorganic pyrophosphatase (FEBS 11386) *A.V. Raznikov, V.A. Sklyankina, S.M. Avayeva*
- Purification and characterization of a fibrinolytic serine proteinase from *Aspergillus fumigatus* culture filtrate (FEBS 11396) *G. Larcher, J.-P. Bouchara, V. Annatx, F. Symoens, D. Chabas, G. Tronchin*
- One step purification and characterization of the pyrrolidone carboxyl peptidase of *Streptococcus pyogenes* over-expressed in *Escherichia coli* (FEBS 11417) *A. Awadé, T. González, P. Cleuziat, J. Robert-Baudouy*

- Subunit interactions of the Go protein (FEBS 11423) *L. van der Voorn, T.M. Hengeveld, H.L. Plaegh* 75
- Phosphorylated cystatin  $\alpha$  is a natural substrate of epidermal transglutaminase for formation of skin cornified envelope (FEBS 11395) *M. Takahashi, T. Tezuka, N. Kanenuma* 79
- Purification and partial characterization of rat liver pyruvate dehydrogenase kinase activator protein (free pyruvate dehydrogenase kinase) (FEBS 11397) *D.A. Priestman, S.C. Mistry, A.L. Kerbey, P.J. Randle* 83
- Single channel recording in the chloroplast envelope (FEBS 11399) *I.I. Pattison* 87
- Zinc-induced tyrosine phosphorylation of hippocampal p60<sup>src</sup> is catalyzed by another protein tyrosine kinase (FEBS 11398) *A.V. Vener, J. Loeb* 91
- A novel role for calcitonin in calcium homeostasis (FEBS 11400) *S. Anderson, V.D. Appanna, J. Huang, T. Viswanatha* 94
- Elevated cytosolic concentrations of SecA compensate for a protein translocation defect in *Escherichia coli* cells with reduced levels of negatively charged phospholipids (FEBS 11403) *R. Kusters, R. Huijbregts, B. de Kruijff* 97
- Class II tubulin, the major brain  $\beta$  tubulin isotype is polyglutamylated on glutamic acid residue 435 (FEBS 11405) *M. Rüdiger, U. Plessman, K.-D. Klöppel, J. Weiland, K. Weber* 101
- Book Reviews 106
- Folypolyglutamate analogs can inhibit casein kinase II from *Xenopus laevis* (FEBS 11389) *R. Teller, C.C. Allende, J.E. Allende* 113
- Progesterone action through aggregation of a receptor on the sperm plasma membrane (FEBS 11410) *J. Tesarik, C. Mendoza, J. Moos, P. Fénichel, M. Fehlmann* 116
- Activation of protein kinase C by the 14-3-3 proteins homologous with Exo1 protein that stimulates calcium-dependent exocytosis (FEBS 11406) *T. Isobe, Y. Hiyane, T. Ichimura, T. Okuyama, N. Takahashi, S. Nakajo, K. Nakaya* 121
- Over-expression of human phospholipase C- $\gamma 2$  enhances platelet-derived growth factor-induced mobilization of intracellular  $\text{Ca}^{2+}$  and the release of arachidonic acid and prostaglandins in NIH 3T3 fibroblasts (FEBS 11411) *F. Totzke, H. Hug, E. Fitzke, D. Marmé, P. Dieter* 125
- Purification and characterization of glycerol-3-phosphate dehydrogenase of *Saccharomyces cerevisiae* (FEBS 11413) *J. Albertyn, A. van Tonder, B.A. Prior* 130
- Investigation of spatial relationships and energy transfer between complexes B800-850 and B890-RC from *Chromatium minutissimum* reconstituted into liposomes (FEBS 11415) *A.A. Moskalenko, O. Toropygina, V.I. Godik, K. Timphues, A. Freiberg* 133
- Effect of RU 38486 on TNF production and toxicity (FEBS 11407) *G. Lázár Jr., E. Duda, G. Lázár* 137
- Essential catalytic role of Glu<sup>134</sup> in endo- $\beta$ -1,3-1,4-D glucan  $\alpha$ -glucanohydrolase from *B. licheniformis* as determined by site-directed mutagenesis (FEBS 11408) *A. Planas, M. Juncosa, J. Lloberas, E. Querol* 141
- The compact state of reduced bovine pancreatic trypsin inhibitor is not the compact molten globule (FEBS 11409) *E.E. Gussakovskiy, E. Haas* 146
- Mapping and sequence-specific identification of phosphopeptides in unfractionated protein digest mixtures by matrix-assisted laser desorption/ionization time-of-flight mass spectrometry (FEBS 11416) *T.-T. Yip, T.W. Hutchens* 149

|                                                                                                                                                                                                                                      |     |                                                                                                                                                                                                                                                  |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Glycoprotein-binding site of dystrophin is confined to the cysteine-rich domain and the first half of the carboxy-terminal domain (FEBS 11418) <i>A. Suzuki, M. Yoshida, H. Yamamoto, E. Ozawa</i>                                   | 154 | Interleukin-1 $\beta$ induces the expression of an isoform of nitric oxide synthase in insulin-producing cells, which is similar to that observed in activated macrophages (FEBS 11434) <i>D.L. Eizirik, E. Cagliero, A. Björklund, N. Welsh</i> | 249 |
| Characterisation of a human bilirubin UDP-glucuronosyltransferase stably expressed in hamster lung fibroblast cell cultures (FEBS 11419) <i>L. Sutherland, S. bin Senafi, T. Ebner, D.J. Clarke, B. Burchell</i>                     | 161 | Mutations in a putative agonist binding region of the AMPA-selective glutamate receptor channel (FEBS 11437) <i>S. Uchino, K. Sakimura, K. Nagahara, M. Mishina</i>                                                                              | 253 |
| Protein synthesis in HL-60 cells treated with DMSO and hypoxanthine (FEBS 11420) <i>E.M. Tyabeka, A.M. Masemola</i>                                                                                                                  | 165 | Tobacco chloroplast ribosomes contain a homologue of <i>E. coli</i> ribosomal protein L28 (FEBS 11439) <i>F. Yokoi, M. Sugiura</i>                                                                                                               | 258 |
| Human immunodeficiency virus type 1 productive infection in staurosporine-blocked quiescent cells (FEBS 11422) <i>A. Aranda-Anzaldo, D. Viza</i>                                                                                     | 170 | Synthesis of the proline analogue [2,3- <sup>3</sup> H]azetidine-2-carboxylic acid: Uptake and incorporation in <i>Arabidopsis thaliana</i> and <i>Escherichia coli</i> (FEBS 11440) <i>N. Verbruggen, M. van Montagu, E. Messens</i>            | 261 |
| Modulation of expression of multidrug resistance gene ( <i>mdr-1</i> ) by adriamycin (FEBS 11421) <i>S. Kato, J. Nishimura, Y. Yufu, H. Ideguchi, T. Umemura, H. Nawata</i>                                                          | 175 | Non-equivalent natures of the coordinated imidazole rings of cytochrome <i>c</i> <sub>1</sub> from <i>D. vulgaris</i> Miyazaki F as studied by <sup>1</sup> H NMR (FEBS 11445) <i>H. Akutsu, M. Hirasawa</i>                                     | 264 |
| Production and secretion of plasminogen in cultured rat brain microglia (FEBS 11424) <i>K. Nakajima, N. Tsuzaki, K. Nagata, N. Takemoto, S. Kohsaka</i>                                                                              | 179 | Vitamin E dietary supplementation inhibits transforming growth factor $\beta$ 1 gene expression in the rat liver (FEBS 11451) <i>M. Parola, R. Muraca, I. Dianzani, G. Burrera, G. Leonarduzzi, P. Bendinelli, R. Piccoletti, G. Poli</i>        | 267 |
| MAP kinase kinase from rabbit skeletal muscle: A novel dual specificity enzyme showing homology to yeast protein kinases involved in pheromone-dependent signal transduction (FEBS 11401) <i>S. Nakiety, D.G. Campbell, P. Cohen</i> | 183 | Trimethylamine dehydrogenase of bacterium <i>W<sub>3</sub>A<sub>1</sub></i> : Molecular cloning, sequence determination and over-expression of the gene (FEBS 11472) <i>G. Boyd, F.S. Mathews, L.C. Packman, N.S. Scrutton</i>                   | 271 |
| Three-dimensional structure of (1-36)bacterioopsin in methanol-chloroform mixture and SDS micelles determined by 2D <sup>1</sup> H-NMR spectroscopy (FEBS 11425) <i>K.V. Pervushin, A.S. Arseniev</i>                                | 190 | Flow-induced prostacyclin production is mediated by a pertussis toxin-sensitive G protein (FEBS 11469) <i>F. Berthiaume, J.A. Frangos</i>                                                                                                        | 277 |
| Reversal of oxidative phosphorylation in submitochondrial particles using glucose 6-phosphate and hexokinase as an ATP regenerating system (FEBS 11426) <i>L. de Meis, M.A.B. Grieco, A. Galina</i>                                  | 197 | Spontaneous thioester bond formation in $\alpha$ <sub>2</sub> -macroglobulin, C3 and C4 (FEBS 11474) <i>M.K. Pangburn</i>                                                                                                                        | 280 |
| Nerve growth factor rapidly regulates VGF gene transcription through cycloheximide sensitive and insensitive pathways (FEBS 11429) <i>M. Baybis, S.R.J. Salton</i>                                                                   | 202 | Molecular cloning and permanent expression in a neuroblastoma cell line of a fast inactivating potassium channel from bovine adrenal medulla (FEBS 11441) <i>M. Garcia-Guzmán, S. Calvo, V. Ceña, M. Criado</i>                                  | 283 |
| Rat liver BiP/GRP78 is down-regulated by a peroxisome-proliferator, clofibrate (FEBS 11427) <i>K. Motojima, S. Goto</i>                                                                                                              | 207 | The protein phosphatase inhibitor, okadaic acid, potentiates the stimulatory effect of phorbol ester on phosphatidylcholine synthesis, but not on phospholipid hydrolysis, in fibroblasts (FEBS 11442) <i>Z. Kiss</i>                            | 290 |
| Is the cytosolic catalase induced by peroxisome proliferators in mouse liver on its way to the peroxisomes? (FEBS 11428) <i>A.M. Eriksson, B. Lundgren, K. Andersson, J.W. DePierre</i>                                              | 211 | Construction of dystrophin fusion proteins to raise targeted antibodies to different epitopes (FEBS 11443) <i>H.B. Ginjaar, H.B.M. van Paassen, J.T. den Dunnen, N.T. Mai, G.E. Morris, A.F.M. Moorman, G.J.B. van Ommen</i>                     | 293 |
| A novel specific binding site for anxiolytic homophthalazines in the rat brain (FEBS 11430) <i>C. Salamon, E.J. Horváth, M.I.K. Fekete, P. Arányi</i>                                                                                | 215 | Specific release of a 9-kDa extrinsic polypeptide of photosystem I from spinach chloroplasts by salt washing (FEBS 11444) <i>W.-Z. He, R. Malkin</i>                                                                                             | 298 |
| Implication of brain cdc2 and MAP2 kinases in the phosphorylation of tau protein in Alzheimer's disease (FEBS 11432) <i>M.D. Ledesma, I. Correas, J. Avila, J. Diaz-Nido</i>                                                         | 218 | Activation of protein kinase C attenuates the cyclic GMP responses to C-type natriuretic peptide in cultured mouse astrocytes (FEBS 11447) <i>V.T.F. Yeung, S.K.S. Ho, C.S. Cockram, C.M. Lee, M.G. Nicholls</i>                                 | 301 |
| Phosphorescence and ODMR study of the binding interactions of acetylcholine receptor $\alpha$ -subunit peptides with $\alpha$ -cobratoxin (FEBS 11431) <i>A.E. Tringali, S.F.A. Pearce, E. Havrot, H.C. Bremner</i>                  | 225 | Quantitative study of the binding of cysteine proteinases to basement membranes (FEBS 11448) <i>N. Guinée, V. Dalet-Fumeron, M. Pagano</i>                                                                                                       | 305 |
| Corrigendum                                                                                                                                                                                                                          | 229 | Conformation of two non-immunosuppressive FK506 analogs when bound to FKBP by isotope-filtered NMR (FEBS 11450) <i>A.M. Petros, M. Kawai, J.R. Luly, S.W. Fesik</i>                                                                              | 309 |
| Binding of RNA by the alfalfa mosaic virus movement protein is biphasic (FEBS 11435) <i>F. Schoumacher, M.-J. Gagey, M. Maitre, C. Stussi-Garaud, T. Godefroy-Colburn</i>                                                            | 231 | Activation mechanism of human Hageman factor-plasma kallikrein-kinin system by <i>Vibrio vulnificus</i> metalloprotease (FEBS 11452) <i>S.-i. Miyoshi, S. Shinoda</i>                                                                            | 315 |
| Protein engineering of <i>Drosophila</i> alcohol dehydrogenase: The hydroxyl group of Tyr <sup>152</sup> is involved in the active site of the enzyme (FEBS 11438) <i>R. Albalat, González-Duarte, S. Atrian</i>                     | 235 | Author Index to Volume 308                                                                                                                                                                                                                       | 320 |
| DNA unwinding activity of replication protein A (FEBS 11436) <i>A. Georgaki, B. Strack, V. Podust, U. Hübscher</i>                                                                                                                   | 240 | Contents to Volume 308                                                                                                                                                                                                                           | 324 |
| Regions of $\beta$ 4/ $\beta$ 2 subunit chimeras that contribute to the agonist selectivity of neuronal nicotinic receptors (FEBS 11433) <i>A. Figt, B.N. Cohen, M.W. Quirk, N. Davidson, H.A. Lester</i>                            | 245 | Erratum and Corrigendum                                                                                                                                                                                                                          | 326 |
