First published online 14 October 2002

An unfortunate error occurred in the name of the second author. The correct name is given above.

Line 13 of the first paragraph of the Introduction section should read: ... four-subunit cohesin complex [4–6].

The last sentence of Section 2.1 should read: The preparations of affinity-purified anti-separase antibody, recombinant securin, and active separase have been described elsewhere [10,13].
