

## ERRATUM

**Kirkeby S, Mandel U, Vedtofte P (1993) Identification of capillaries in sections from skeletal muscle by use of lectins and monoclonal antibodies reacting with histo-blood group ABH antigens. Glycoconjugate Journal 10:181-8.**

Due to typesetting errors the following corrections should be made:

- (1) Page 182, first column, second last paragraph, 7th line: Five mouse monoclonal antibodies. . . . Should be: Four mouse monoclonal antibodies. . . .
  - (2) Page 182, second column, first paragraph, 7th line: others were fixed oxidized in 0.5% periodic acid. . . . Should be: others were fixed and then oxidized in 0.5% periodic acid. . . .
  - (3) Page 183, first column, third paragraph, 6th line: and a weak GS I binding to the sarcolemma. . . . Should be: and a moderate GS I binding to the sarcolemma.
  - (4) Page 184, second column, third line from bottom: An expansion of the conflicting results. . . . Should be: an explanation of the conflicting results.

(5) Page 185, first column. The structure of the first carbohydrate depicted should be:

(6) Page 186 the caption for Fig. 10 UEA I staining after incubation. . . . Should be: Staining after incubation.

(7) Page 187, second column. The structure of the carbohydrate depicted should be:
