### 13th International Symposium on Glycoconjugates *Seattle, WA, USA* 20-26 August 1995

The Scientific Program Committee have arranged 32 mini-symposia including:

Glycosylation affecting protein structure and function  
Carbohydrate-protein interaction  
Plant glycobiology  
Golgi enzyme targeting  
Biology and proteoglycans  
Gangliosides in neurobiology

New methods of glycoconjugate analysis  
Glycosylation and cancer  
Dolichol-linked pathways  
Glycosphingolipid interactions and receptor  
Plant and animal lectins  
Glycopathology of parasites
