

Computer Solution of Waveguide Discontinuity Problems

P.J.B. Clarricoats and K.R. Slinn. "Computer Solution of Waveguide Discontinuity Problems." 1967 G-MTT International Microwave Symposium Program and Digest 67.1 (1967 [MWSYM]): 23-27.

A technique has been developed which enables two important classes of waveguide discontinuity problem to be solved on a computer by simple numerical methods. The classes are: 1. Transverse discontinuities. 2. Longitudinal discontinuities.
