## A Low VSWR Matching Technique (Correspondence and Authors' Reply)

---

*L. Goldstone and P.A. Rizzi. "A Low VSWR Matching Technique (Correspondence and Authors' Reply)." 1957 Transactions on Microwave Theory and Techniques 5.2 (Apr. 1957 [T-MTT]): 163-163.*

I would like to call your attention to a certain error in the above correspondence. The admittance function plotted by the author on the Smith chart winds counter-clockwise. This is contrary to the laws of nature for passive linear networks. These laws prescribed that the plot of the admittance function wind clockwise from the low to the high frequency.
