The Cutoff Wavelength of Trough Waveguide (Correspondence)

K.S. Packard. "The Cutoff Wavelength of Trough Waveguide (Correspondence)." 1958 *Transactions on Microwave Theory and Techniques* 6.4 (Oct. 1958 [T-MTT]): 455-456.

The trough waveguide, although in use for several years, is not widely known and has received only little attention in the literature. This waveguide was suggested by E. G. Fubini, and its fundamental mode may be compared to that of a TE mode in symmetrical strip transmission line.
