*R.E. Beam and M.E. Brodwin. "Report of Advances in Microwave Theory and Techniques in U.S.A.-1958." 1959 Transactions on Microwave Theory and Techniques 7.3 (Jul. 1959 [T-MTT]): 308-325.*

This report on advances in microwave theory and techniques is based on papers appearing in American journals. Advances in the realm of sources and detectors, transmission lines, circuits and circuit elements, components, and measurements are reported. No attempt is made to cover advances in the realm of antennas and wave propagation.
