A Tunnel-Diode Amplifying Converter (Correspondence)

*L.E. Dickens and C.R. Gneiting. "A Tunnel-Diode Amplifying Converter (Correspondence)."
1961 Transactions on Microwave Theory and Techniques 9.1 (Jan. 1961 [T-MTT]): 99-101.*

Sufficient literature has already been presented to establish the fact that tunnel diodes appear to have a bright future as relatively low noise, low power consumption, amplifying devices.
