Cutoff Wavelengths of Waveguides with Unusual Cross Sections (Correspondence)

J.R. Pyle and R.J. Angley. "Cutoff Wavelengths of Waveguides with Unusual Cross Sections (Correspondence)." 1964 *Transactions on Microwave Theory and Techniques* 12.5 (Sep. 1964 [T-MTT]): 556-557.

This communication describes a method for computing the cut-off wavelength of waveguides of unusual cross section. This is achieved by reducing the cross section to a large number of simple rectangular strips.
