## Propagation of the Quasi-TEM Mode in Ferrite-Filled Coaxial Line (Correspondence)

---

*M.M. Weiner, M.E. Brodwin and D. Miller. "Propagation of the Quasi-TEM Mode in Ferrite-Filled Coaxial Line (Correspondence)." 1966 Transactions on Microwave Theory and Techniques 14.1 (Jan. 1966 [T-MTT]): 49-50.*

Brodwin and Miller, in discussing the propagation of the quasi-TEM mode in ferrite-filled coaxial line, were apparently unaware of an earlier comprehensive treatment of the subject. For purpose of comparison, the notations in this correspondence correspond to those used by Brodwin and Miller.
