The Design of Waveguides with Symmetrically Placed Double Ridges (Correspondence)

E.V. Jull, W.J. Bleackley and M.M. Steen. "The Design of Waveguides with Symmetrically Placed Double Ridges (Correspondence)." 1969 Transactions on Microwave Theory and Techniques 17.7 (Jul. 1969 [T-MTT]): 397-399.

Design curves for TE-mode propagation in a rectangular waveguide with double ridges placed symmetrically about the guide axis are presented. The waveguide is potentially very useful in microwave beating and drying applications.
