Computer Programs for Smith-Chart Solutions (Program Descriptions)

J.W. Verzino. "Computer Programs for Smith-Chart Solutions (Program Descriptions)." 1969 Transactions on Microwave Theory and Techniques 17.8 (Aug. 1969 [T-MTT] (Special Issue on Computer-Oriented Microwave Practices)): 649-650.

These subroutines are used in performing Smith-chart analysis. They are also applicable to even-odd mode analysis.
