Microwave Cataract (Correspondence)

*R.W. Neidlinger. "Microwave Cataract (Correspondence)." 1971 *Transactions on Microwave Theory and Techniques* 19.2 (Feb. 1971 [T-MTT] (Special Issue on Biological Effects of Microwaves)): 250-251.*

The production of cataract by exposure to microwave radiation can occur, although just how it occurs is not well established. Clarification as to the occurrence of cataract in microwave worker population can only be achieved by careful cumulative records of the visual and ophthalmological status of microwave worker populations.
