The 1971 International Microwave Symposium was held in Washington, D.C., on May 17-19 at the Marriott Twin Bridges Motel. The Symposium, in spite of the present economic situation, was both a technical and a financial success. A total registration of 460 was obtained. The success of the Symposium is attributable in part to the hard work of the Symposium Steering Committee, H.W. Cooper, Chairman, and the strong local support from engineers in the Baltimore-Washington area.
