The Solution of Helmholtz Equation in Elliptical Domains (Short Papers)

P.A. Laura. "The Solution of Helmholtz Equation in Elliptical Domains (Short Papers)." 1972 Transactions on Microwave Theory and Techniques 20.4 (Apr. 1972 [T-MTT]): 292-292.

The propagation of electromagnetic (EM) waves in hollow, perfectly conducting waveguides has been studied recently by Kretzschmar in an excellent paper. Extensive numerical data are presented for the cutoff wavelength on 19 successive modes.
