Double-Amplification Mode Maser (Short Papers)

S. Dmitrevsky and P.C. Kremer. "Double-Amplification Mode Maser (Short Papers)." 1973 Transactions on Microwave Theory and Techniques 21.6 (Jun. 1973 [T-MTT]): 426-427.

A chromium-doped rutile traveling-wave maser utilizing simultaneously two signal frequency transitions has been designed and a prototype section tested.
