## Submillimeter Waves - Bridging the Microwave/Optical Gap

---

*M.A. Pollack. "Submillimeter Waves - Bridging the Microwave/Optical Gap." 1972 G-MTT International Microwave Symposium Digest of Technical Papers 72.1 (1972 [MWSYM]): 126-127.*

This paper surveys the current state of submillimeter wave techniques. Recent work on sources, detectors and other components is described, and areas of major difficulty are indicated.
