A Guided Millimeter-Wave Transmission System Using High-Speed PSK Repeaters

K. Miyauchi, K. Izumi and S. Seki. "A Guided Millimeter-Wave Transmission System Using High-Speed PSK Repeaters." 1972 G-MTT International Microwave Symposium Digest of Technical Papers 72.1 (1972 [MWSYM]): 128-130.

This paper presents system features and some hardware performances of the "W-40G" guided millimeter-wave transmission system, which is under development at the Electrical Communication Laboratories, NTT, Japan.
