## Metrological Applications of a Property of Stationarity in Rectangular Cavities Containing a Dielectric Slab

---

*C.E. Eugene. "Metrological Applications of a Property of Stationarity in Rectangular Cavities Containing a Dielectric Slab." 1973 G-MTT International Microwave Symposium Digest of Technical Papers 73.1 (1973 [MWSYM]): 140-142.*

A property of stationarity for the resonant frequency of a rectangular cavity in function of the thickness of a dielectric slab inserted in it, leads to a new and accurate measuring method of the permittivity of the sample.
