The Progress of Integrated Optics in Japan

Y. Suematsu. "The Progress of Integrated Optics in Japan." 1975 *Transactions on Microwave Theory and Techniques* 23.1 (Jan. 1975 [T-MTT] (Special Issue on Integrated Optics and Optical Waveguides)): 16-20.

Recent progress in the field of integrated optics in Japan is reviewed. The research effort on planar guides, active integrated optics, and microoptics is outlined and pertinent references are given.
