A Waveguide Applicator for Sheet Materials (Letters)

S.G. Kashyap and J.G. Dunn. "A Waveguide Applicator for Sheet Materials (Letters)." 1976 *Transactions on Microwave Theory and Techniques* 24.2 (Feb. 1976 [T-MTT]): 125-126.

A partially loaded waveguide applicator for uniform heating of high-attenuation sheet materials is described. Experimental results are presented to exhibit its performance.
